The 1977 Stone Fort

This book has been compiled on the basis that you, as a student, are anxious to have a reminder of your years here at Stephen F. Austin State University. Each section has been carefully constructed to show to the fullest what was important, fun, surprising, and worth remembering. SFA is one of the few schools in the nation that can boast of an increase in yearbook popularity. Therefore it is our duty to see that your school is well represented and that an honest approach is given to each subject.

The Stone Fort follows a tradition of fifty-one previous volumes. While willing to remain true to tradition, it is the goal of this staff to take the best of tradition and combine it with the best of today into a contemporary blend that will show what makes SFA special. Too often a book such as this is used to condemn or state a personal objective, but The Stone Fort tries to convey the message of the students.

These are our college years, and for most of us the best years of our lives. For it is here that lifelong friends are made, the first major step toward our goal is taken, we learn what makes us special as individuals, and perhaps the most lasting of all, our memories. Thus, our job is to preserve these lasting thoughts year by year into a volume of pictures and words that speak for themselves and record your actions and your thoughts before the magic becomes memory.

Nacogdoches, Another hometown

Nacogdoches — for many SFA students it is a second hometown, and a place that can be a comfort just for being known.

An historic town, Nacogdoches is the oldest settlement in Texas, founded in 1716 as a Spanish mission by Fray Antonio Margil de Jesus. The name "Nacogdoches" is of Indian origin.

In 1921, when SFA was established Nacogdoches was a sleepy country town, and the growth of the town has followed that of the university. SFA opened with 158 students and now has more than 11,000 students each regular semester.

Similarly, Nacogdoches seems to have awakened at last with a considerable population increase from 1960 to 1970, and as the situation changes so has Stephen F. Austin State University.

They belong together

The university, which began with only one building, now fills 400 acres, part of the original homestead of Thomas J. Rusk. The university also maintains a 280-acre beef farm, a 200-acre dairy farm, and an experimental forest in southwest Nacogdoches County.

With 23 major instructional buildings and 19 dormitories, SFA offers 13 baccalaureate degrees. Graduate study in the arts, business, education, the humanities and sciences, and forestry is encouraged; and the university stresses broad requirements in literature, science and the social sciences for its degrees.

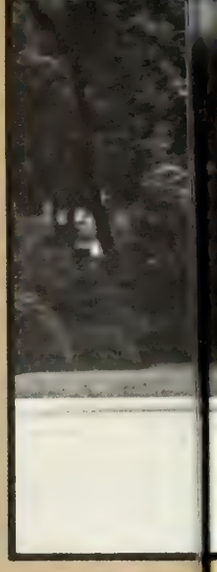
But Nacogdoches and SFA are more than cold figures and statistics. They are intertwined parts of each other, each coloring the other in many ways.

Nacogdoches is North Street and stately gingerbread houses. It is narrow, winding brick streets and a town where salespeople still say "thank you" and comment on the weather.

What then, is SFA? It is an assortment of buildings, each reflecting different eras and tastes. It is a place where you wear your worst pair of jeans or your best pair to class and no one cares. It is an air of country and city combined in a way that is difficult to explain yet very real; it is the place where memories happen.

Nacogdoches and SFA. They belong together and they are a part of each other. And together, they are going somewhere in the future.

Activities



Variety

College life is the best type of life to be living sometimes. The best thing about it is the variety of things to do . . .

Like riding bicycles on scenic streets on cool, shady days . . .

Or eating watermelon on hot sunny days with a friend . . .

Like spending a few nights a week learning to make pottery or macramé just for the fun of it . . .

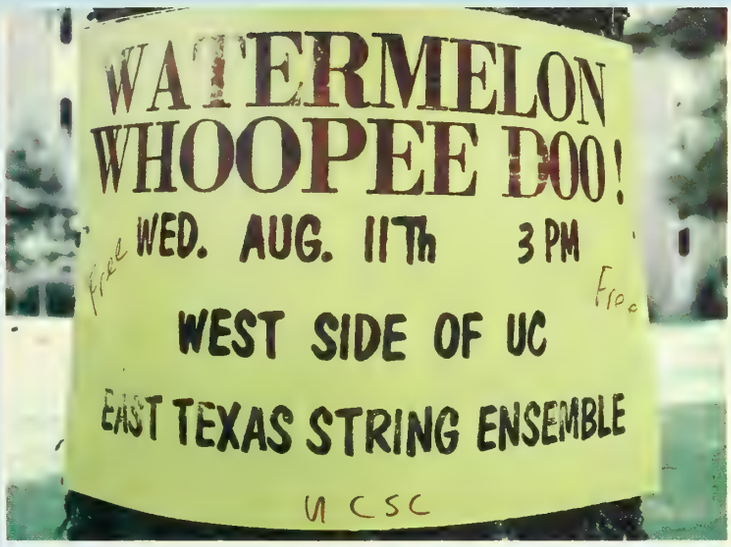
Or pooling your talents with others to do something that you cannot do alone — a play, for instance . . .

Maybe the opportunity to get something for nothing appeals to you; free haircuts have been known to happen at SFA . . .

And sometimes, no matter how careful you may be, repairs have to be made to keep things going.

Whatever the activity, people at SFA are always doing something, going somewhere, or simply finding the time to accomplish what needs to be done.

With spring comes the fair



A taste of life

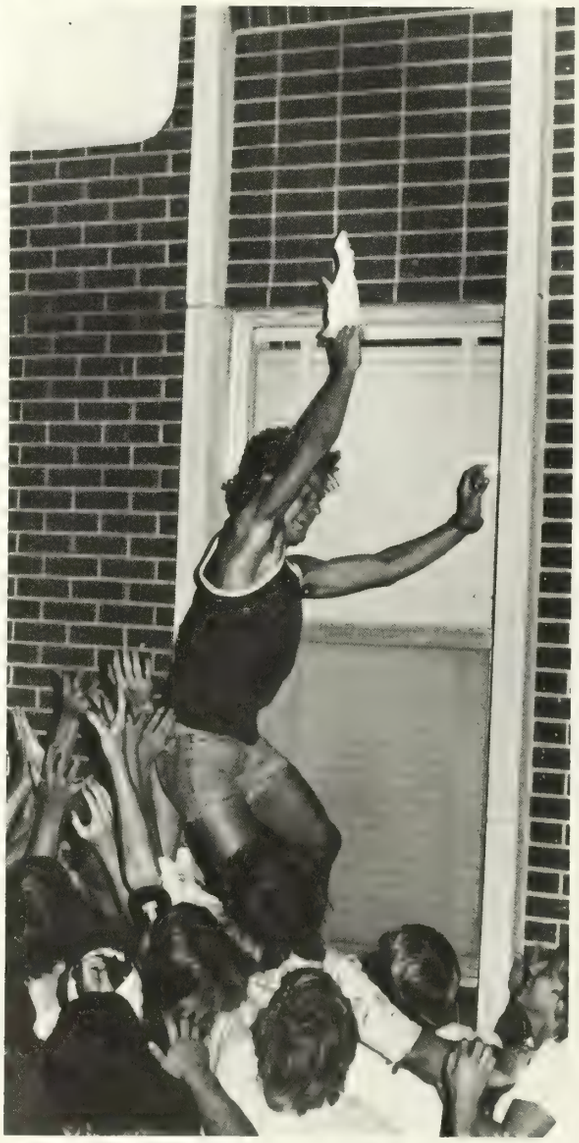
Reflections

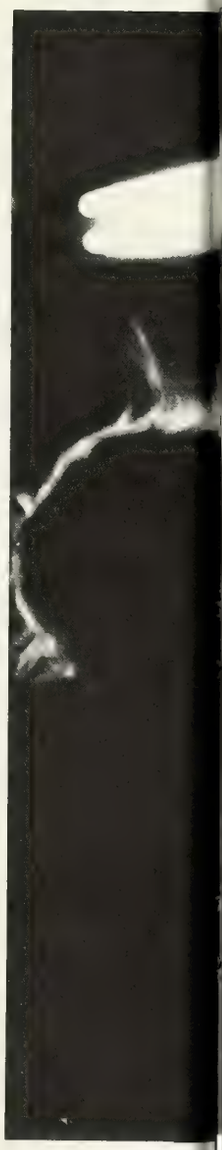
Some people believe life is only a mirror image of reality. Ralph Waldo Emerson was one such person.

And psychologists become more certain every day that we are what we experience; our lives are shaped by events, possessions, and other people.

Even the light-hearted, carefree time a person spends has an influence on who and what we are and maybe how we will react to pressure someday.

The time may come when the bills are overdue, the children are sick, and the cost of living is just too high; maybe then the happy times spent at college will reappear in our minds — a reflection of a time that will never come again.





HOMECOMING '76

The Man and the University

Homecoming at SFA was . . .

— Mums and glittering purple ribbons and the sound of little copper bells

— Shelly LaFour, the Homecoming Queen, in burgundy velvet and a sparkling tiara

— Coming back to visit old haunts and friends, and to remember what college life was like.

* * * * *

"Stephen F. Austin — The Man and the University" was the theme for the 48th annual Homecoming at SFA **October** 29-30. In conjunction with the school's activities Nacogdoches Mayor A. L. Mangham proclaimed Friday, **October** 29, as Lumberjack Day.

Saturday dawned clear and cool, and the traditional Homecoming parade marched through downtown Nacogdoches, featuring 15 floats and 25 marching groups from throughout the area and began the day.

Later, the Stephen F. Austin Lumberjacks lost the afternoon football game to the Texas Lutheran College Bulldogs 35-18, bringing the Lumberjacks' season record to 1-6-1.

Shelly LaFour, Anahuac senior, was crowned 1976 Homecoming queen during halftime activities. Susan Rorhbach, Houston senior, was the Lady-in-waiting.

'Pride of SFA'

Take some big bass drums and sparkling batons . . .

White boots and purple uniforms and golden buttons . . .

Plumes and horns and whistles that pierce the air . . .

And toe-tappin' music that makes everything seem charged with excitement . . .

Mix all these together and throw in some pride, and you've got the Marching Lumberjack Band, the "Pride of SFA."

In the name of spirit

Throughout the fall semester, Thursday nights were pep rally nights, when the band played lively music and the cheerleaders did their best to promote spirit among students and the Lumberjack football team.

"The best pep rallies were at the beginning of the season," cheerleader Christie Cooper said. "A lot of people turned out to support the team." "The most disappointing things about the season," according to cheerleader Monte Purdom, "were the fans and the scores. But I think both will be better next year."

Some of the innovative pep rallies included one pajama rally and another with a country and western theme. Before the football game with Northwestern State University, Coach Mark Crawford explained the legend of Chief Caddo, and at the first rally Coach Simmons introduced the football team.

In reward for their hard work and efforts, the football team awarded each cheerleader a plaque to show their appreciation. According to the cheerleaders, that really helped make it worthwhile.

Spring production a huge success

Trombones and singing cast members filled the Griffith Fine Arts auditorium April 8, 1976, when "The Music Man" came to SFA.

Based on playwright Meredith Wilson's boyhood recollections of a brass band in Mason City, Iowa, the musical centers around a con man in the guise of a band director who tries to fleece a small town. The plot becomes complicated when he falls in love with the one person who knows he is a swindler, Marion, the librarian.

Dr. William Turner, dean of the School of Fine Arts, was the musical director and producer. Dr. Thomas Heino, head of the theater department, served as stage director. Thomas Mathys designed the sets and lighting, and Clifford Smith designed the costumes. Leonard Blackwell, Galveston Sophomore, was the show's choreographer for a cast of 55.

"The Music Man" was a joint effort of the departments of theater, music, and women's health and physical education.

Only at SFA

Lumberjack Day is an event sponsored annually by the Sylvans Club as part of the Homecoming festivities. Some of the activities included in the event are tobacco spitting, cross-cut sawing, greased pole climbing, and axe throwing. Organizations enter and compete against each other.

Lumberjack Day was postponed this year due to rain, but was rescheduled for Nov. 3. Despite a few minor injuries during the greased pole competition, most of the participants and spectators had a great time.

In Concert

In December the dance production class presented its annual In Concert production, directed by instructor MargeAnn McMillan.

This production involves six days a week rehearsals from September until the day it is presented and is the main event for the class. The class also gives performances for area high schools and churches.

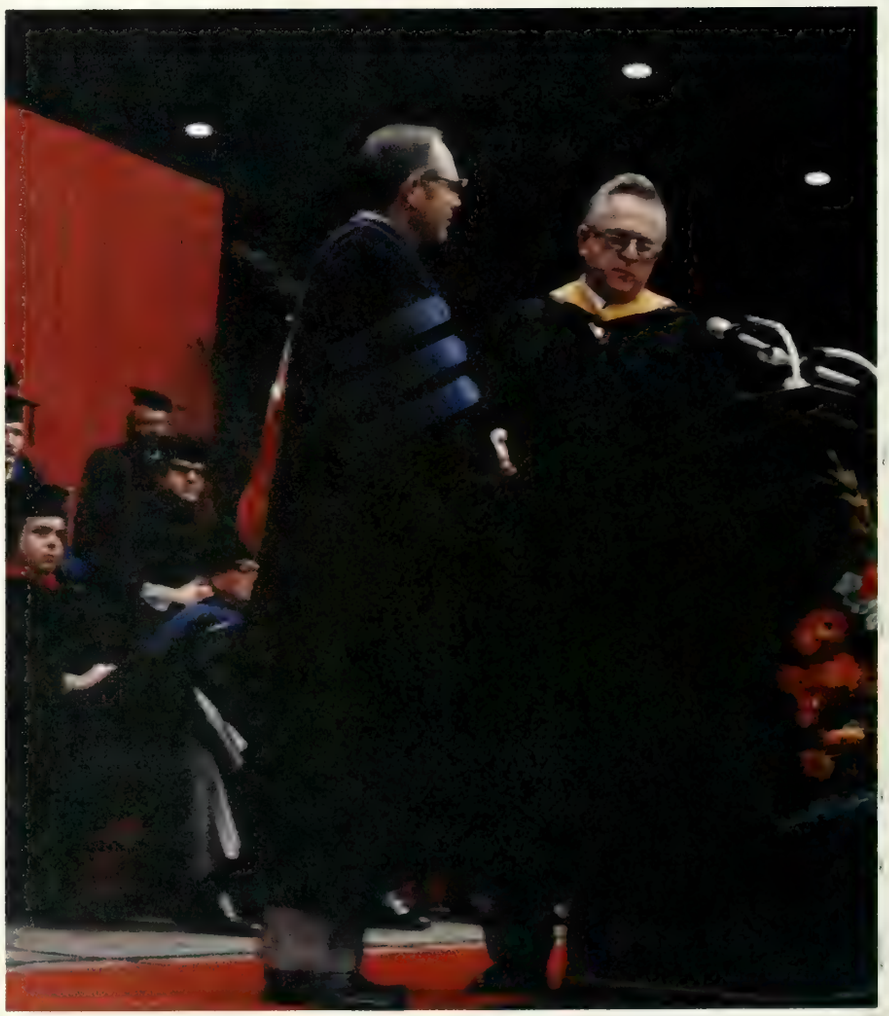
Choreography used in these productions is created by the students and ranges from tap and jazz to modern ballet and dance drama.

These are scenes from the Variations on Six Strings and Yuletide Celebrations suites.

This year's production included five suites and 21 dancers.

The dancers in this sequence are Rodna Connor, Kathy Williams, Carole Cramm, Cindy Hoffmaster, Cindy Bridges, Debbie Daggett Debbie Garrett, Tara Moulin.

Johnson is inaugurated as SFA's fourth president



Not since 1958 has Stephen F. Austin State University inaugurated a new president; therefore, Nov. 18 was an important day in SFA's history.

On that date, Dr. William R. Johnson became the fourth president of SFA, succeeding Dr. Ralph W. Steen, who retired last summer after 18 years of service.

In his inaugural speech, Dr. Johnson stated his belief that the essential commitment of SFA is to uphold academic excellence in education.

"This is the best return the university can make to the society which provides its support," he said. "The essential function of education is the expansion of the human mind . . . the most valuable resource our country has. Our education should provide for each person who comes, an opportunity to acquire and expand professional skills and abilities."

Dr. Johnson also stressed the importance of individuality and freedom of thought as commitments of the university.

"The freedom the university upholds and celebrates — our academic freedom — is the freedom of the individual mind. This is not a freedom for teachers alone, but a fundamental freedom of us all," he added. "Its maintenance is a special obligation undertaken by institutions of higher learning . . . These are substantial commitments, but are those associated with academic freedom."

The university's role as a stimulus for intellectual growth was yet another commitment cited by Dr. Johnson on a day which he described as "an occasion to state essential beliefs and reaffirm commitments."

Fine Arts Series

The SFA Fine Arts Series brought an opera, two plays, a symphony, and a ballet to Nacogdoches this year.

Performances included "Shenandoah," Nov. 1; "The Marriage of Figaro," Jan. 25; the Shreveport Symphony, Feb. 8; The Hartford Ballet, March 16; and "My Fair Lady," April 21, 22, and 23.

Dr. William Turner, dean of the school of Fine Arts, began the series in 1961 when he was head of the SFA Music department.

The current head of the music department, Dr. Robert Blocker, performed with the Shreveport Symphony in the Griffith Fine Arts Auditorium during their concert here.

The University Symphony Orchestra, conducted by Dr. Thomas Houston, performs four major concerts each year, in addition to its many other activities.

With approximately 63 members, the symphony is one of the fastest growing organizations at SFA, according to Dr. Houston. Membership is not limited to music majors and minors. Anyone interested in performing with the group is auditioned by Dr. Houston.

Last fall, the symphony orchestra drew 5,000 children to the SFA Coliseum for the annual Children's Concert. The 1976 Sounds of Christmas Concert was co-sponsored by the Nacogdoches Junior Forum, and half of the proceeds were donated to the Nacogdoches Treatment Center.

Each spring the Pops Concert features an outstanding soloist, either vocal or instrumental. The symphony also assists the drama department with a musical production each spring, participates in special programs and sponsors a summer drill team workshop.

Profits from the various performances are added to a scholarship fund for music majors and minors.

The symphony orchestra was organized in 1959 under the direction of Dr. Robert Pipkin. Dr. Houston became the conductor in 1970. Most of the new programs were established under his influence.

The popularity of the University Symphony may be enhanced by the fact that the group plays a variety of music to whet the musical appetite of the entire audience.

The Carpenters

Music is many things to many people — the memory of a melody to which you danced at the senior prom, or an unexpected reminder of a long-unseen friend.

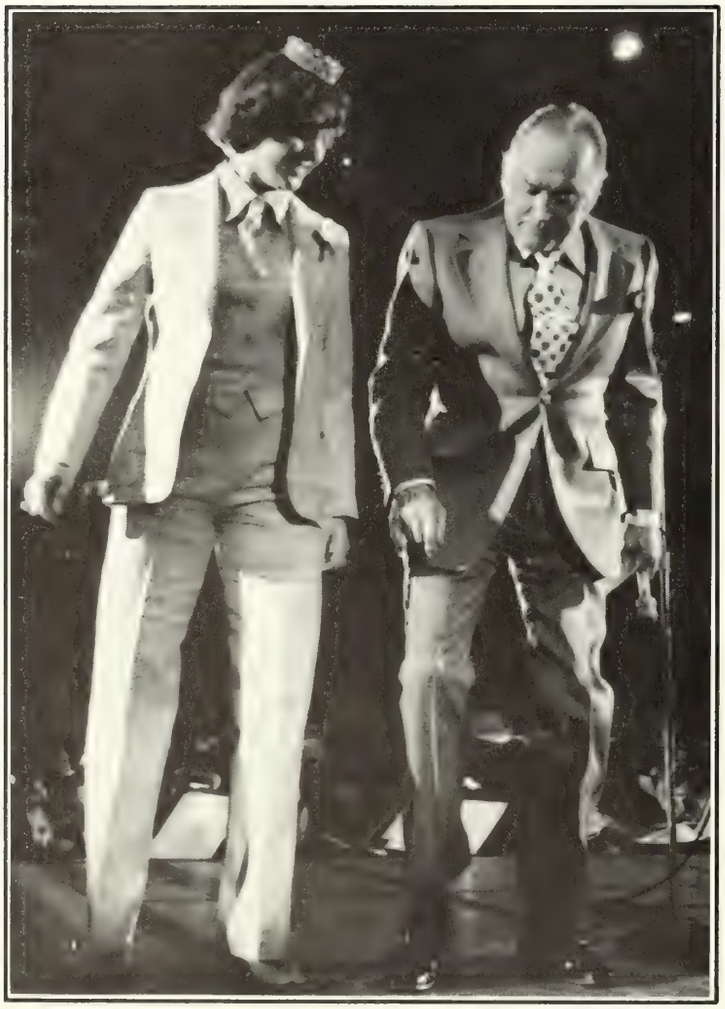
Maybe that is why the music of Karen and Richard Carpenter is so popular. Singing songs like "Close To You," "We've Only Just Begun," "Yesterday Once More" and "Top of the World," the Carpenters performed before a crowd of approximately 9,000 on Thursday Oct. 21, in SFA Coliseum.

Comedian Lonnie Shorr preceded the Carpenters on the stage.

Overall, the concert was a success. As one coed put it, "It was one of those performances that left you feeling great inside. I was really glad I went."

November 18, 1976

Bob Hope



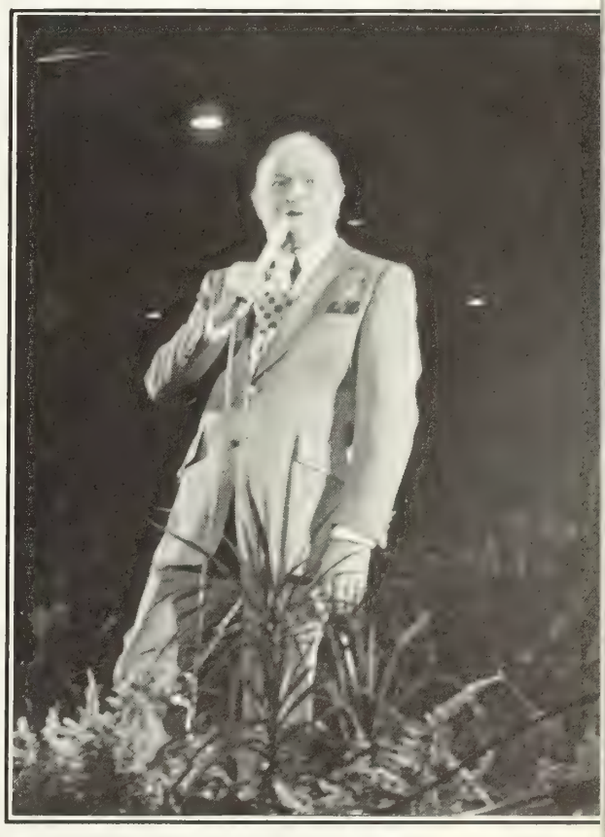
Julie Budd

Making people laugh and enjoying it is part of Bob Hope's "double therapy" which he applied to SFA students on Nov. 18, in the SFA Coliseum.

The veteran comedian and singer Julie Budd performed before a crowd of approximately 6000, with the University Symphony Orchestra providing music. Two SFA coeds, Vollie Holt and Lou Williford, sang with Budd.

Following the performance, members of the University Performing Arts Committee took Mr. Hope and Miss Budd to dinner at a local restaurant and dancing at Snoopy's.

While many people were surprised at the long duration of the show, most people agreed it was time well spent.



Performances

The SFA Department of Theater presented four major productions on campus, in addition to the music department's annual opera.

The productions included

"The Serpent: A Ceremony" by Jean-Claude van Itallie.

"Candle in the Wind" by Aleksandr Solzenhitsyn.

"Ladies in Retirement" by Edward Percy and Reginald Denham.

"The Good Woman of Setzuan" by Bertolt Brecht.

"The Ballad of Baby Doe" music by Douglas Moore; book by John Latouche.

Living to learn

Take any small room; build bookshelves, desks, tiny closets and a bathroom; hang a mirror. The results will be an even smaller room where two people can sleep and study.

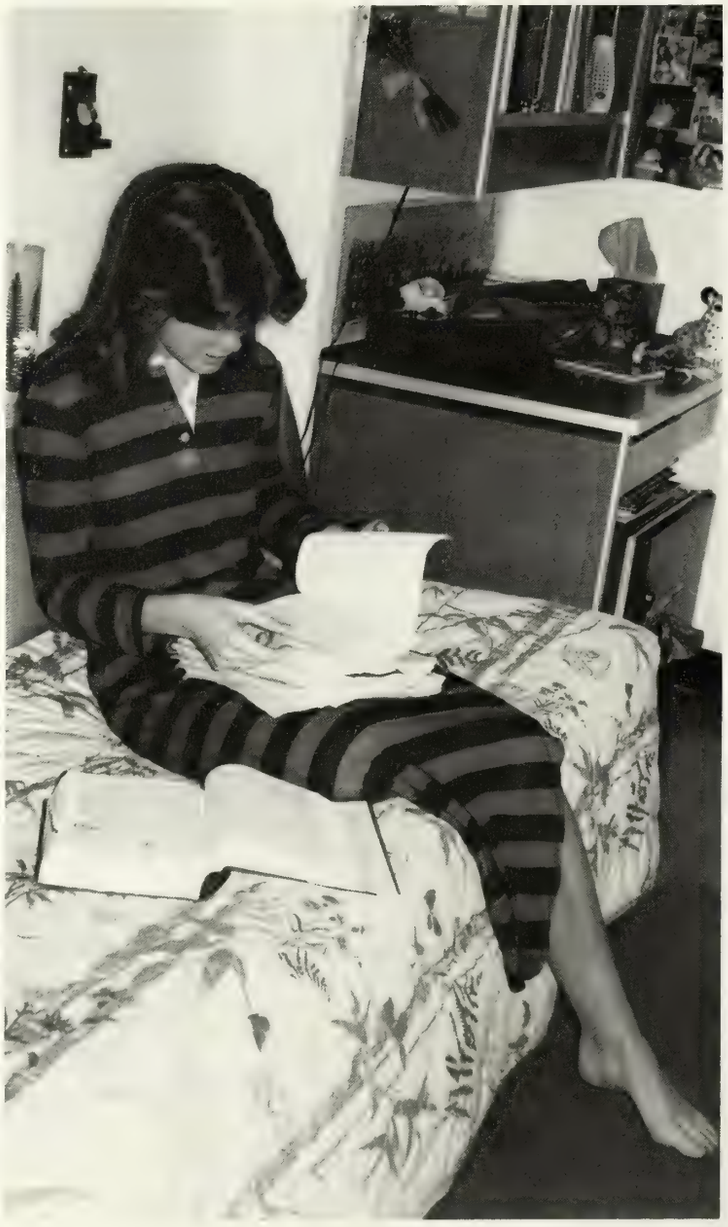
But to make this room into a dorm room add two happy people who can share with one another. Sharing friends, secrets, telephone calls and goodies received from home or purchased in vending machines give roommates an opportunity to become friends.

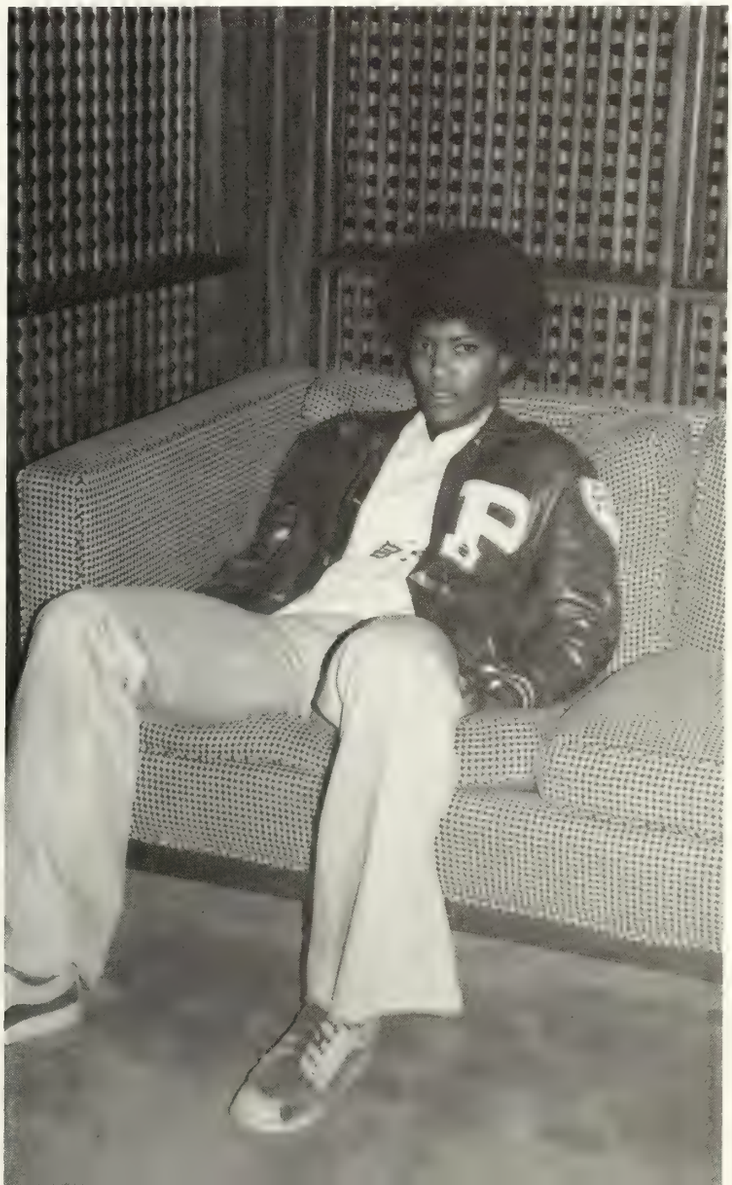
They learn to share quiet study times and the inevitable responsibilities — such as cleaning.

Sharing friends, music and television isn't restricted to a room but spreads from one floor to the next and even into the guests areas. Waiting for dates or just wanting to sit alone in a large space is common to dorm living.

Studying for final exams isn't always easy, especially for dorm students, but somehow the last exam is completed and the student leaves college confident that testing is over. However, the biggest exam lies ahead in coping with outside forces.

Dorm students are prepared for those tests also. They have learned to love, understand, and cooperate with those around them. Many of the friendships will last a lifetime. New friends will be earned by using the same basic rules learned, not from a textbook, but by living the dorm life.





'Twas three weeks before Christmas,
and all through the dorm
With all that activity one would
expect a great storm.
Decorations went up with a great
laughter and shout,
'Just one more week and school will
be out!

A young child was asked why the Christmas Season was her favorite time of year and she replied, " 'Cause mommy takes out her songs and smiles and wears them all the time."

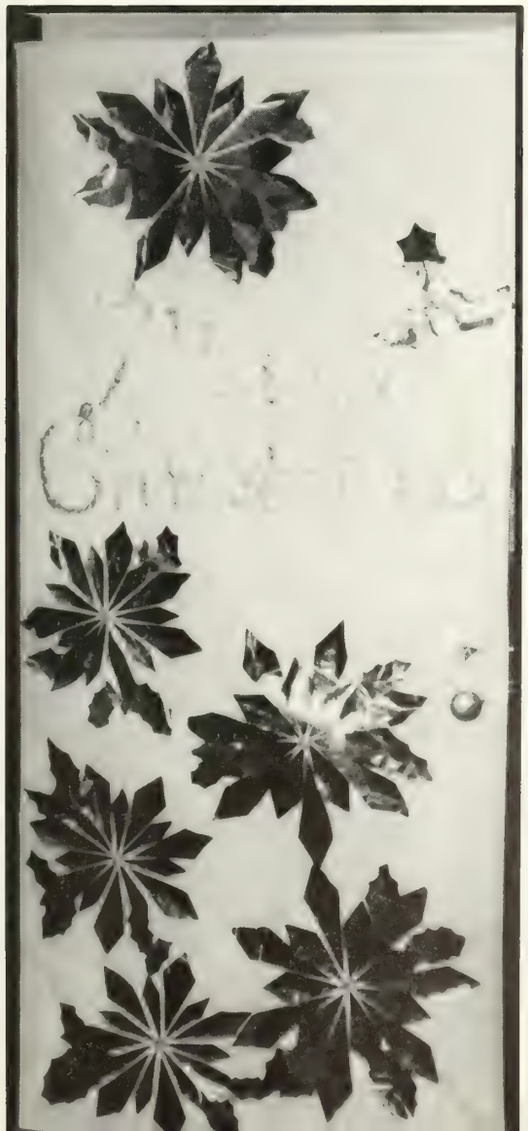
In the midst of end-of-semester work and preparing for finals, Christmas was not overlooked at SFA. Decorated doors symbolized the open hearts of many during the season.

Trees at various spots on campus glittered their special greetings to all who passed. "The Sounds of Music" continued to fill the air long after the symphony's performance.

Students found time to chat with friends or daydream of home and Christmas by the cheerfully decorated fireplace at Friendship Lounge in the UC.

But the very best sounds and decorations were the songs and smiles that people took out and wore all the time.

"'Twas the night before
Christmas,
and all through the house
not a creature was stirring
not even a mouse."



A spark of magic

Winter in Nacogdoches is usually cold and wet. This year we had our share of ice as well.

Ice covered the campus as the temperatures dropped well below freezing. It isn't often that this part of the country is blanketed by snow, so when it does happen it sparks a bit of magic in us all. We gaze at the wonder of the ice as it forms its sparkling crystals — showing no mercy as it shimmers on every tree, flower bud, and building.

It seems like another world when as we walk through a campus covered in snow, it seems so easy to reflect upon ourselves and our surroundings. But most enhancing of all is the special thought of someone dear, and that ever present hope that tomorrow will bring even better memories.

Student publications editors

The student publications editors are selected by the Communications Board and work for the duration of the publications. Work on The 1977 Stone Fort began in April 1976, to insure complete coverage of a full year's activities. The Pine Log and The Stone Fort are also used as practical work in the department's curriculum for professionally oriented students in each of these facilities.

For the first time in the history of The Pine Log, the spring editions were published semi-weekly on a trial basis. Separate staffs for the two editions were used and more students were able to benefit from the experience.

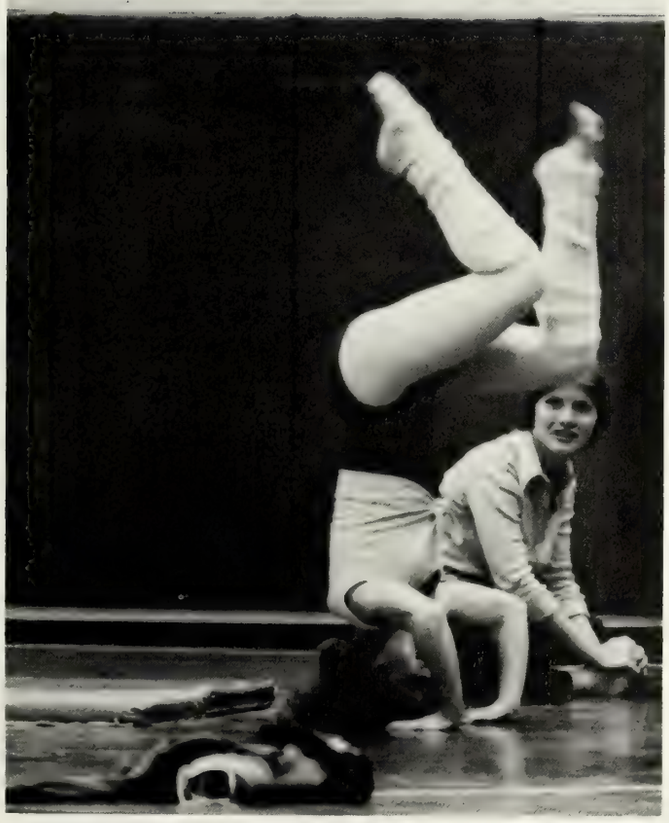
Rain

When one thinks of the first day of classes, what comes to mind — rain.

When you wash your car, what inevitably happens — rain.

When you schedule that first spring activity, what does it do — it rains.

It's strange how all the answers come out to be the same, but when the first thing you pack to return to school is an umbrella, the reason is clear. Nacogdoches, SFA, and rain are inseparable. Yet no matter how hard we try to forget, it rains again.



If they could see us now

Our great-grandparents would laugh at us for playing handball for an hour of exercise. They would work from dawn till dusk picking cotton or washing clothes by hand.

But the world today is filled with labor saving devices, and the hands of the clock seem to go faster than they used to.

So if you are an SFA student and feel the need for exercise, forget the cotton field and the washtubs. The Health and Physical Education Complex has a lot to offer . . .

A swimming pool awaits your splash . . .

Dancers are stretching and limbering their muscles . . .

You can learn to stand on your head or save a life . . .

But best of all, you can get hot and sweaty and go to bed tired.

Graphics SFA '77

"Graphics SFA — A Collection of Student Work" was the title of the annual art exhibit by students in print and drawing classes Feb. 15 through March 4.

The exhibit consisted of the best works of SFA graduate and undergraduate art students in lithographs, silk-screens, etchings, wood cuts and collographs. Faculty members were judges for the event.

An opening reception for the public was held in the Fine Arts Building, and music was provided by "Fredonia Worm Ranchers," a student band.

Record breaking weekend

The last weekend in February was Record Breaking Weekend at SFA, an event sponsored by the Residence Hall Association to try to set new world records in various events.

Using the Guiness Book of World Records as a guide, one world record was broken, and eight possible records were set.

Bryan Kelly, Dallas freshman, set the record by eating 41 jalapeno peppers in 50 minutes. Possible records were in the following events: bathtub sitting, donut hole eating, football throwing, cow chip throwing, glass stacking, olive eating, and salt shaker tilting.

We selected a few pictures to which students could relate as a lasting personal tie with SFA. From our files these are the ones we chose.

The Editor

'Something for Everyone'

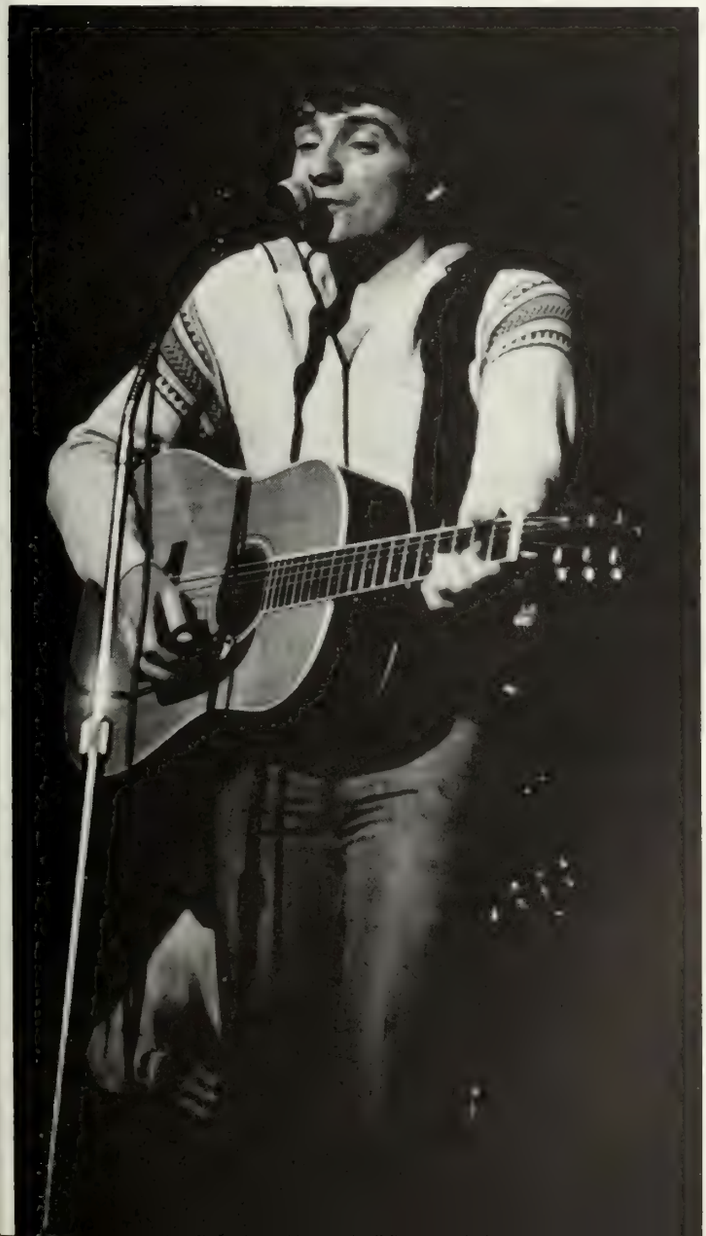
The University Center is in many ways the hub of SFA. Most students visit it daily for mail, meals, school supplies, information or just as a place to meet friends.

Thirteen University Center committees, covering all aspects of college life, plan, organize and promote many activities for students.

One committee brings speakers to the campus to discuss current topics of general interest. Another holds a fashion show for everything from outdoor wear to wedding gowns.

Still other UC committees sponsor dances, concerts, coffeehouses and movies to give students a wide variety of entertainment.

The UC is instrumental to keeping the social life at SFA active while giving students opportunities to expand their interests.



Free UC classes

Although some people may come to college to keep from doing something else, the University Center Special Interests Classes Committee (UCSICC) makes it easy to learn to do something in addition to studying at college.

Every semester, the committee organizes, schedules and equips a variety of free, non-credit classes for interested students. The only limit of what kind of courses are offered is the availability of someone to teach them.

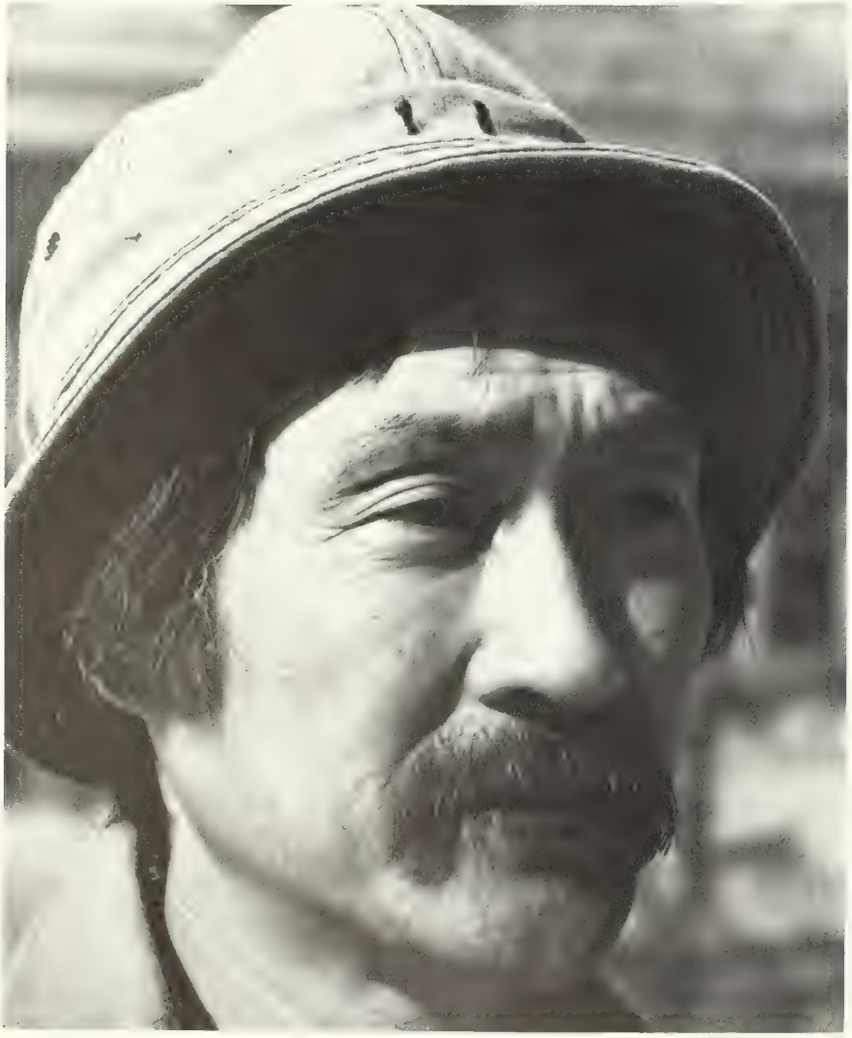
But somehow, the UCSICC found someone to teach classes in everything from needlepoint to birdwatching, beginning pool, stereo and album care, square dancing, basic photography, outdoor survival and camping and many others.

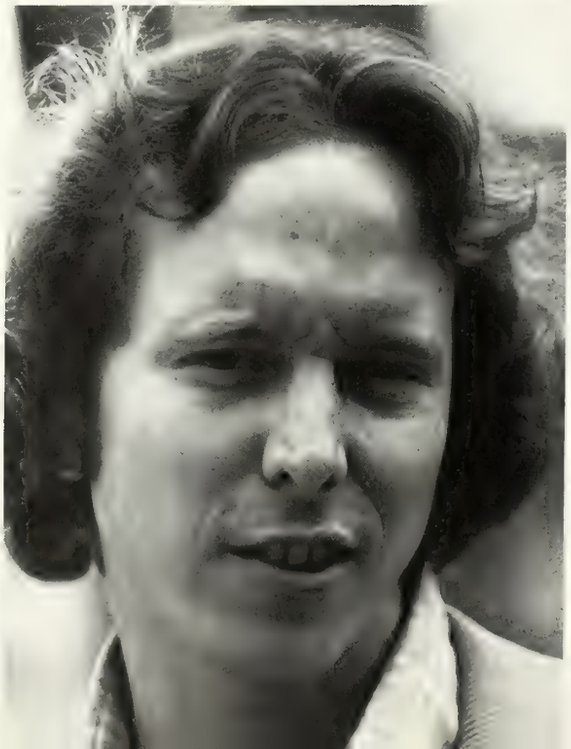
December Graduation

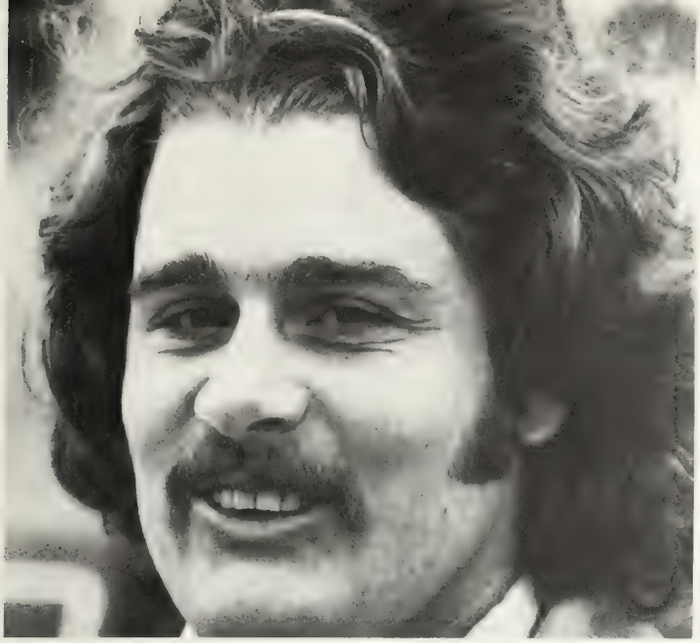
Long years of hard work culminated in graduation ceremonies for approximately 510 seniors and 160 graduate students at 9 a.m. Saturday, Dec. 18 in the SFA Coliseum.

Thomas W. Matthews, graduating with a grade point average of 4.0, was the highest ranking student for the semester.

The commencement address was delivered by Dr. Glenn Barrett, executive vice president of Texas Tech University. Dr. William R. Johnson, president of SFA, conferred the degrees.







The wealth of SFA

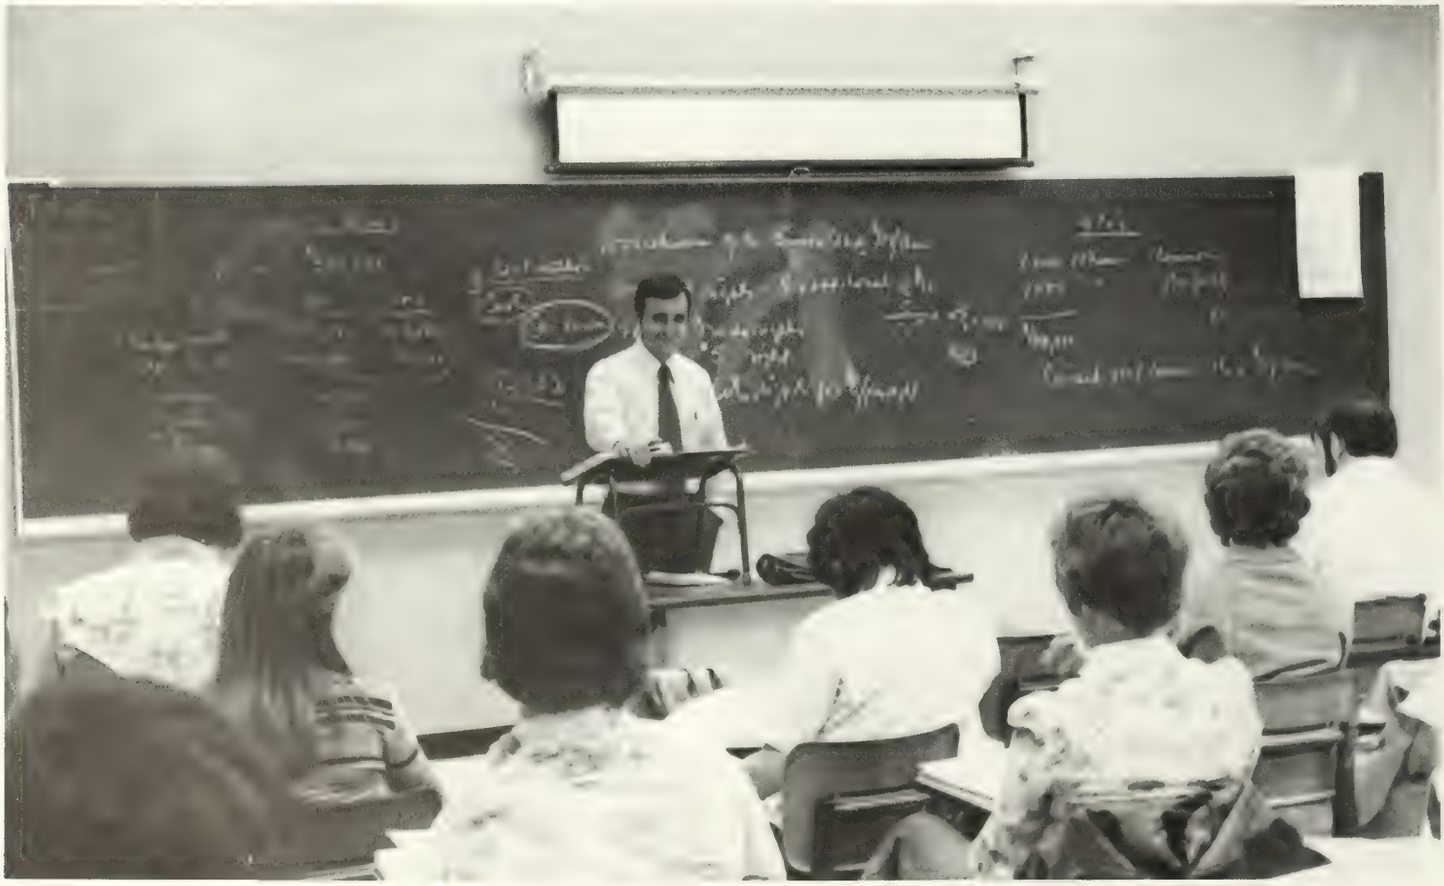
SFA is like many universities; a wide variety of people make up the student body and faculty. But, there is a common demnominator that brings them all together . . . the desire to learn and experience whatever life has to offer.

Faces are the wealth of SFA; they are the life flowing in its veins. The faces change from year to year, with new ones coming to replace those that go to take their places in the world. The faces of the people on the campus are different, and yet so alike. In each one the enthusiasm, the individuality, the confidence to face whatever the future holds are present for all to see.

Most are happy faces, for they are at a time in life when humor is at its best and the world seems to be within a person's reach. And if the older folks say it won't last, well, we can just wait and see.

Accounting

The accounting curriculum offers a professional course of training for employment in public, commercial, industrial or governmental accounting. The core business training included in the requirements for the Bachelor of Business Administration degree along with the accounting curriculum should also qualify graduates for employment leading to executive positions in industry.



Agriculture

The SFA Department of Agriculture offers students courses in business, industry, research and development, education, communications and conservation, as well as in agricultural production and management. Students may specialize in animal science, plant or soil science, agribusiness, horticulture, agricultural machinery or pre-veterinary animal science. The department also maintains outdoor laboratories on the two university experimental farms.

Interested students in the department may join Delta Tau Alpha, Future Farmers of America and the Horticulture Club.

Administrative Services

The objectives of the Department of Administrative Services are to prepare students for administrative office positions, to prepare business teachers for public schools, to offer background knowledge necessary for the business world and to train and develop professional supervisory personnel for business and governmental agencies. The department seeks to generate graduates with requisite skills to fill positions in business and industry, as well as in public schools. The department attempts to provide graduates with a broad understanding of all aspects of business administration.

Art

The art department provides training and experience for students having the ability and desire to pursue a career in art or art education. It also provides opportunities for the development of skills in art and aesthetic understanding in connection with major work in other departments. The department maintains a permanent departmental collection, selected from the outstanding works submitted by art majors, and presents gallery exhibitions as occasional special events.

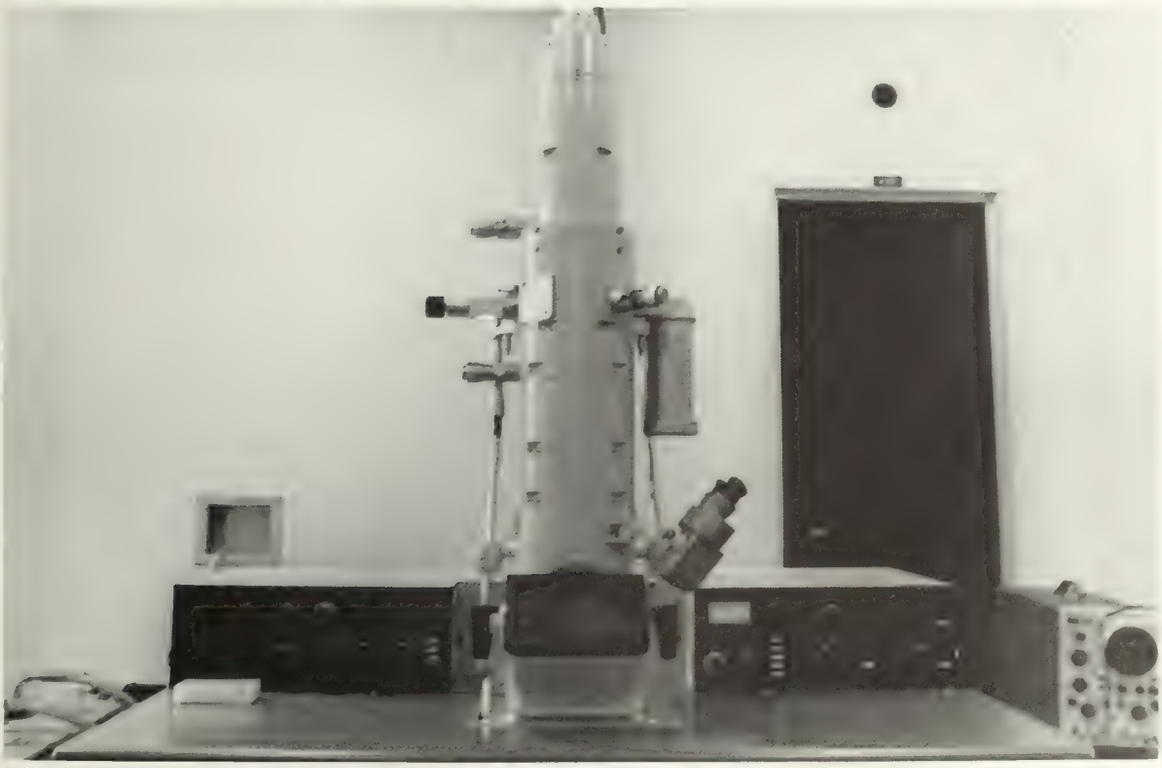
Bible

Bible courses are offered by the Bible Chairs, which are University affiliated agencies operated by the Baptist and Methodist churches.

Their main objectives are to help students gain an understanding of the history and literature of the Bible and an insight into its nature and meaning, to foster appreciation of the spiritual values in human culture and to provide for the special needs of students preparing to enter church related vocations.

Biology

Biology gives students familiarity with the method of science and the facts of biology needed by an educated person in the modern world. The department possesses modern microscopes and physiological equipment in addition to four study collections in both botany and zoology. Biology students are given basic training in several specialized fields to aid those who need a broad foundation in biology for future professional work or study. Beta Beta Beta and the Biology Club are the two departmental organizations.



Chemistry

The Chemistry Department, approved by the American Chemical Society, acquaints students with the methods, concepts and achievements of the science of chemistry. Chemistry graduates are prepared to assume responsibility in industry, government service and teaching. The department offers an honors degree to those students who demonstrate exceptional ability in the field.

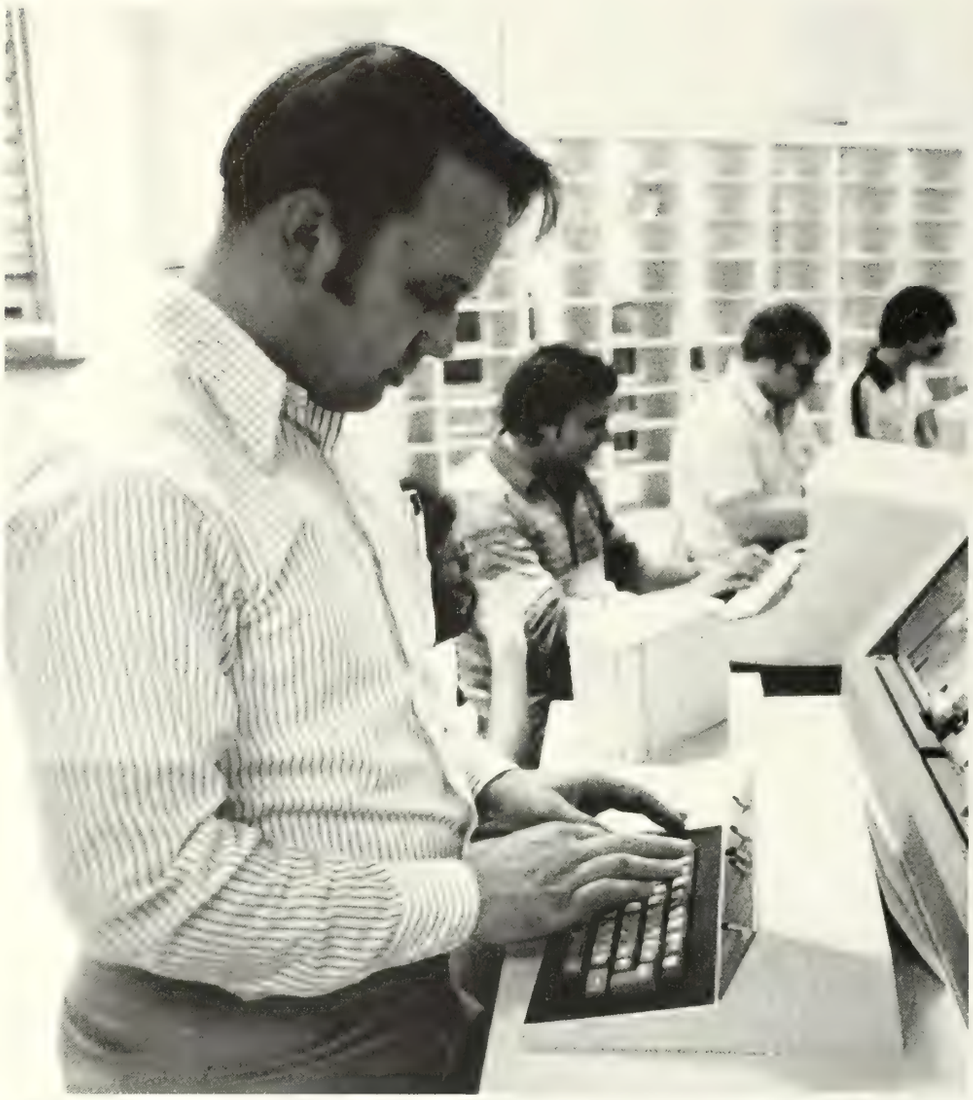
Communication

The Department of Communication educates students in the various aspects of communication as well as prepares them for professional careers. Practical experience is offered through the university's own radio and television stations. The school newspaper, The Pine Log, and the annual, the Stone Fort, give journalism students the benefit of practice. Pi Kappa Delta, the honorary debate organization and Sigma Delta Chi, the professional journalism society, provide forums for students to further their journalistic pursuits. The department attempts to bring the student's general and liberal education into focus by organizing it upon a framework of communication as a science, an art and a service.

Computer Science

The Department of Computer Science is designed to allow future computer specialists to obtain a broad education coupled with a detailed knowledge in computer science sufficient to lay a foundation for professional competence in the computer science field. Courses are also offered to acquaint other students with the capabilities of the computer, so that they may make use of it in their main field of endeavor.

Honorary organizations are the Computer Science Club and Upsilon Pi Epsilon, the national honor society for computer students.



Economics and Finance

The Department of Economics and Finance performs a valuable service role in preparing future business and professional leaders to meet the challenges they will face in the years ahead. A student with a background in economics is prepared for careers in research, analysis, communication and administration in government, private industry and financial institutions. The courses offered seek to give students an understanding of changing economic institutions and to contribute to the development of persons equipped to exercise their responsibilities as members of local, national and world communities.

Elementary Education

The Department of Elementary Education has many facilities to aid students. A modern science education laboratory, well-equipped educational television studios and audio-visual room, a learning center and a reading improvement laboratory are all offered by the department to help students understand the foundations of education and to help them acquire the knowledge and skills necessary for successful teaching in kindergarten and elementary school classrooms. Kappa Delta Pi, Phi Delta Kappa and the Texas Student Education Association are the department's honorary organizations.

Early childhood laboratory

The Early Childhood Laboratory is a facility maintained for the education of students who are learning to work with children and their families. Students enrolled in kindergarten education, infant, child development, nutrition, developmental psychology and children's theatre courses are provided experience with children in the lab.

The lab houses an infant program, a toddler program and two kindergarten programs. It is a subunit of the Department of Elementary Education, and is dedicated to meeting as many needs as possible of students in any department at SFA.

English and Philosophy

The Department of English and Philosophy is one of the largest departments on campus. In addition to offering the basic language and literature courses required of all students, the department contains a wide variety of courses that provide a broader-than-average background in literature and the English language.

Students interested in searching for a general understanding of values and reality will find in the philosophy department a chance for further discussion and study. The philosophy courses are invaluable in that they serve primarily to provide intellectual breadth for all students.

Geography

Geography seeks to define the various aspects of the physical and human features of the earth. Because it presents an integrated view of the physical and social sciences, geography is of significance to a liberal arts program whether the subject is selected as the major, minor or elective. The study of geography informs the student about the world in which he lives and how he can best cope with it.

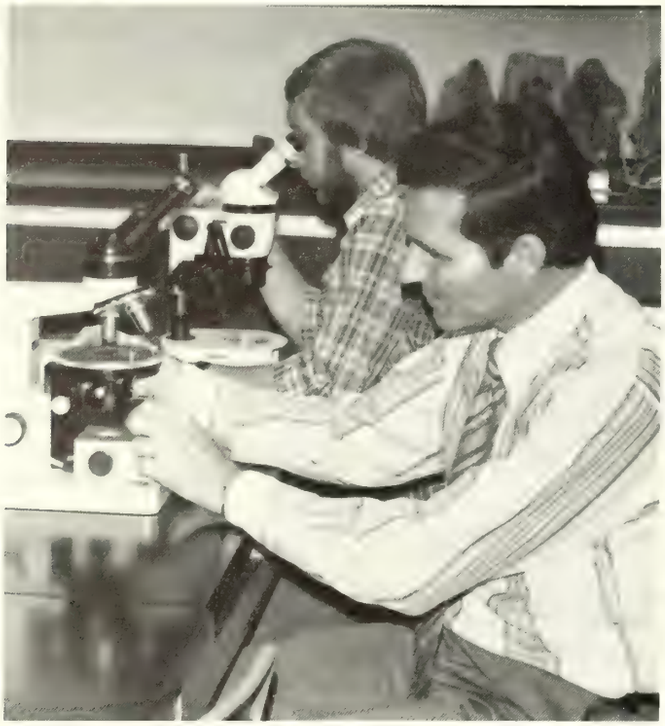
Forestry

The Stephen F. Austin School of Forestry, accredited by the Society of American Foresters, is famous throughout Texas and the Southwest for its professional contribution to the study of forestry. The school has many modern facilities, including an experimental forest and a forestry field station. Forestry graduates receive a professional education in forestry and are qualified for managerial positions.

Geology

The geology program provides students with a broad cultural background in a scientific field. It prepares the student for employment in areas closely related to geology or where a scientific background is a valuable asset.

Study and training in geology are designed to give both science and non-science majors an understanding of the methods of science and the fundamentals of earth science as it relates to the physical environment of man. Over 24 different courses give the student a broad foundation in future professional work or graduate study.



Health and Physical Education

Housed in a new multi-million dollar complex, the Department of Health and Physical Education contributes to the overall education of all college students through its intramural programs and courses aimed at developing total fitness in the individual. The department offers courses in handball, gymnastics, dance, indoor swimming, wrestling and basketball, as well as many other activities. Honorary clubs and organizations are the Major Club for Men, Pi Epsilon Mu, the Health Education Club and Delta Psi Kappa.

History

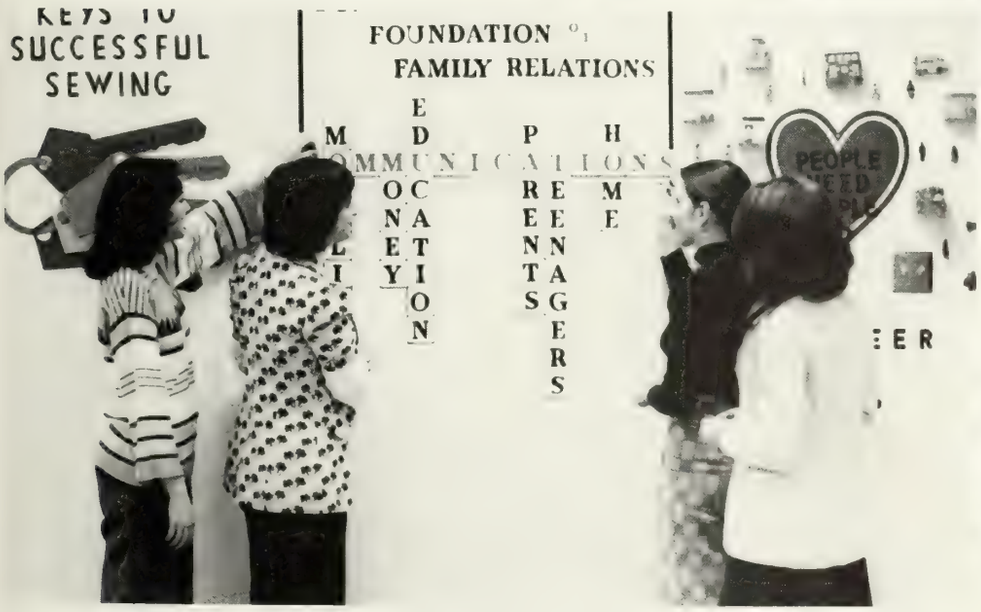
The history program seeks to develop a student broadly educated in liberal arts who appreciates his own national heritage and understands the development and problems of other cultures as well. A student in any discipline will benefit from familiarity with historical processes.

An honors program is offered for those students who meet the criteria for departmental honors study in the School of Liberal Arts. Phi Alpha Theta is the National Honor Society for history majors.

Home Economics

The objectives of the home economics department are the personal development of each student, preparation for home and family living, and preparation for a profession of service to the public. Students may study child-development and family living, food and nutrition, home economics education or clothing and textiles.

Organizations in the department are the Texas Home Economics Student Section, the Home Economics Club and Phi Upsilon Omicron.

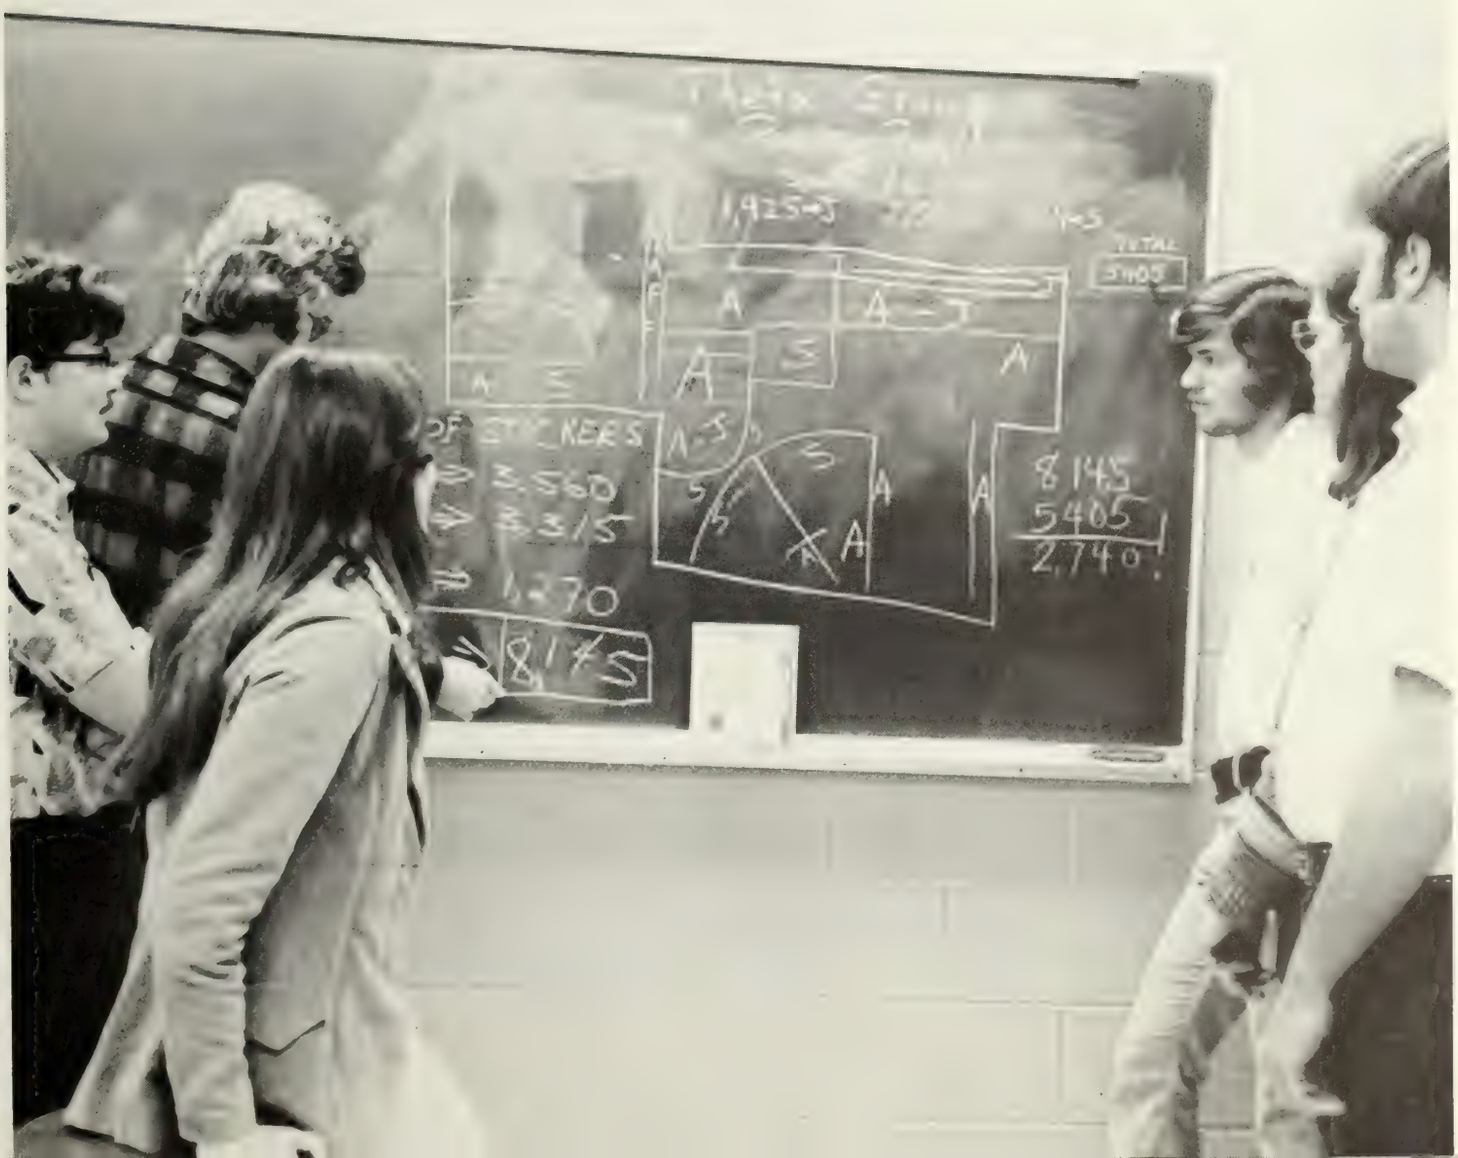


Management and Marketing

The objective of the Department of Management and Marketing is to provide students with an understanding of the nature and capabilities of human and physical resources. The student preparing for a career in management or marketing will find professional career opportunities in widely diverse organizations. A sound background in management fundamentals can accelerate progress to positions of greater responsibility.

Mathematics

The Department of Mathematics and Statistics provides a sound curriculum for students who wish to pursue a career in mathematics, as well as aiding students who are majoring in some other department but who desire mathematics as a tool or to satisfy other general degree requirements. Exceptional students are encouraged to apply for the Mathematics Honors Program. Pi Epsilon is the national honorary mathematics fraternity on campus.



Military Science

Military Science opens a unique dual career field possibility for a student in either military or civilian careers. No military service is incurred until the third year of the ROTC program. Members are issued all books, uniforms and equipment free. Upper level members receive a $100 a month subsistence pay.

Austin Raiders, National Society of Scabbard and Blade, Espirit de Corps, SFA Rifle Team and Color Guard are the five honorary organizations and clubs sponsored by the department.

Modern Languages

The Department of Modern Languages attempts to cultivate an appreciation for the cultures and civilizations of the people whose language is being studied, as well as to provide guidance in preparation for the various opportunities in language work. Sports

Nowhere to go but up

There is no mistaking that the 1976 season was a rebuilding year for the Lumberjacks as their 1-9-1 record indicates. Coach Charles Simmons admits that this was a rebuilding year as probation and other inherited problems hurt the Jacks.

Morale was low and study habits were poor as several key players were lost due to bad grades.

Coach Simmons admits, "We're young, we had 20 freshmen on the squad this year. I think we made a lot of progress, not from a win, loss standpoint but on self discipline, team spirit and team confidence."

Thirty football players received letterman awards for the 1976 season.

Earning a fourth purple and white stripe were Tommy Parr and Jimmy Wilson.

David Cheek earned his third Lumberjack award.

Four former junior college transfers completed their playing careers at SFA. They are Robert Vinson, Steve Adams, Mike Hahn and George Allen.

Vinson was All-Lone Star Conference honorable mention both years for SFA.

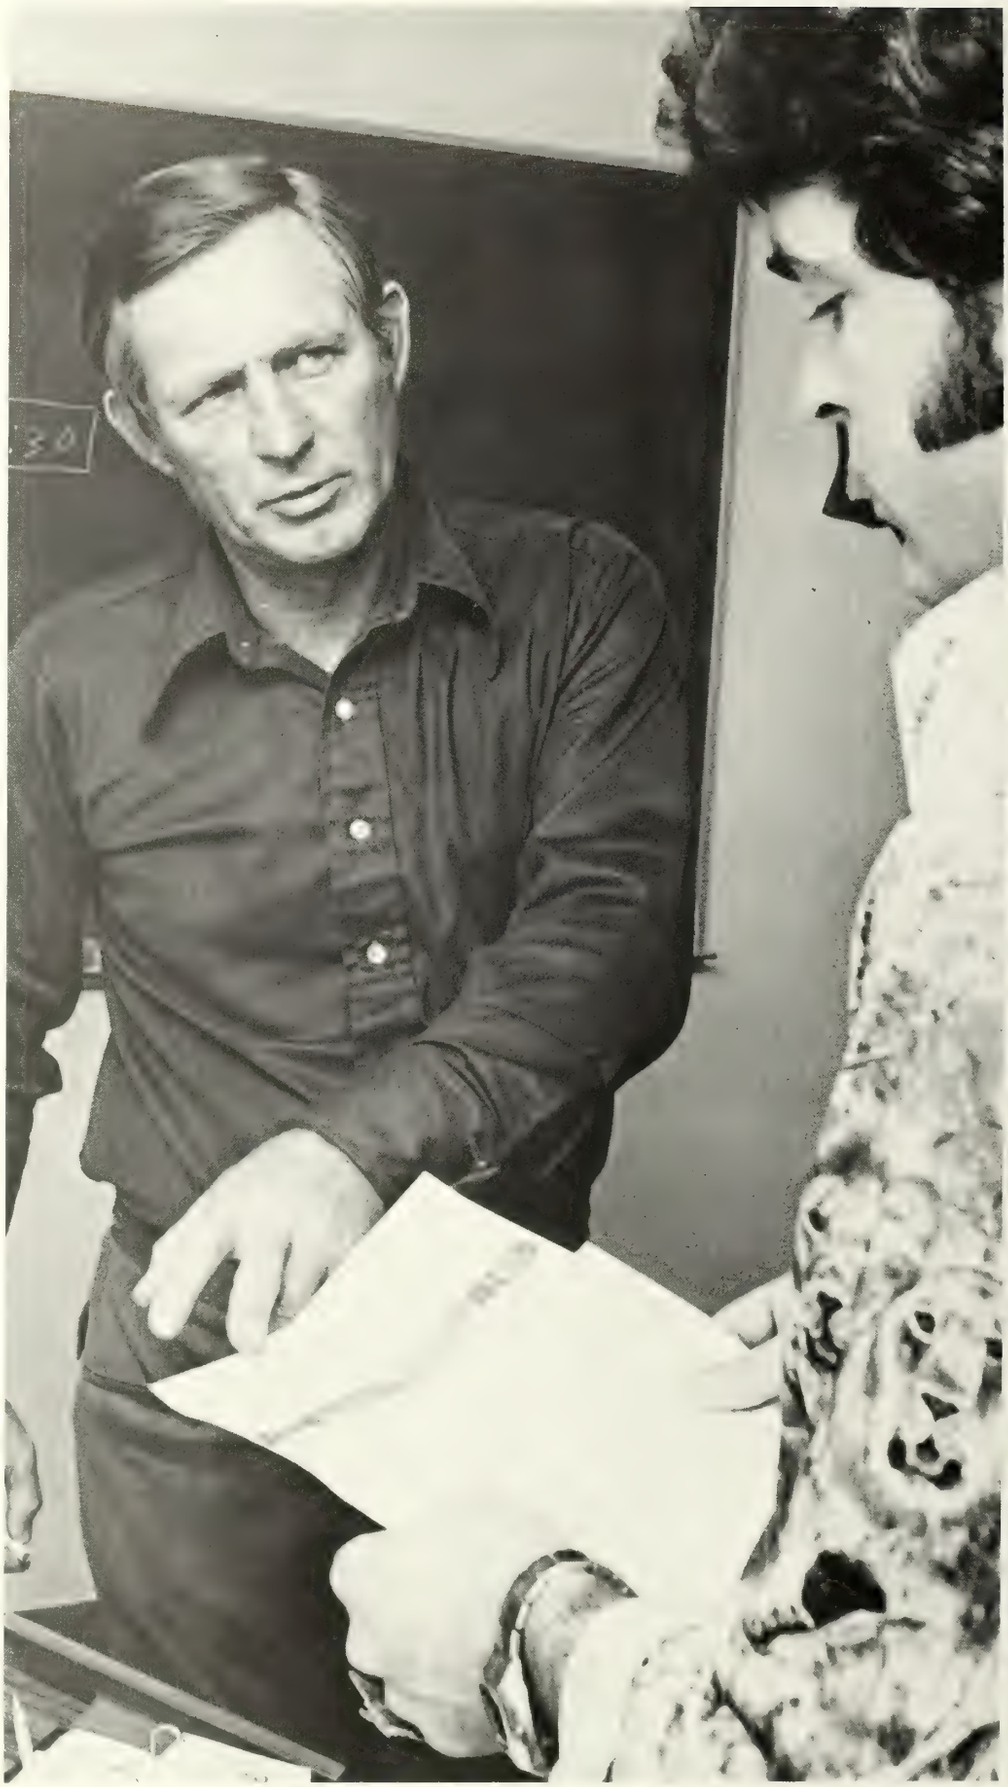
Also lettering are seniors Doak Elledge, Hardden Weech and Scott Brady.

Three juniors received letters Andy Wilkins, Charles Farrell and George Hodge.

Sophomore lettermen included Mark Jones and Hunter Mullikin.

Rookie lettermen were Mike Olle, Brian Williams, John Robertson, Chris Ulery, Richard Gaines and Donnie Dinges.

Also Randy Courtney, Steve Cochran, Carl Medley, Jimmy Wright, Tom Jenkins and David Hadley.



Lions claw Jacks 38-7

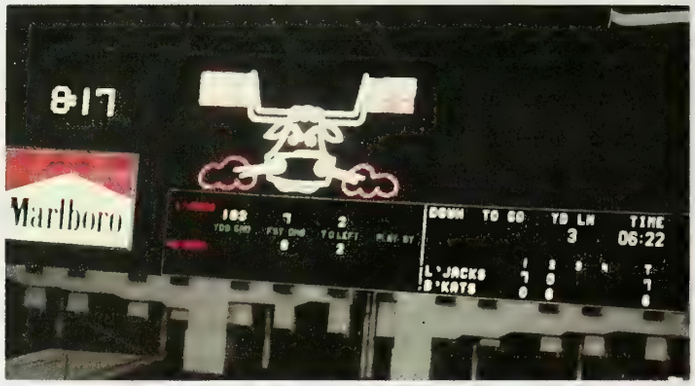
The East Texas University Lions took out the frustrations of a two-game losing streak as they clobbered the Lumberjacks 38-7 before a crowd of 6,300 in the Lumberjack Stadium.

The Jacks were paced by fullback Hardden Weech, who picked up 45 yards on 20 carries and got the only touchdown of the night for the Jacks.

Lumberjack quarterbacks Steve Adams and Herby Baker each hit on five of 14 passes for 50 yards. Baker also rushed for 28 yards on two carries.

The Lions jumped on the scoreboard with less than four minutes in the game. A Lion safety picked off a Hardden Weech fumble at the SFA 31 and returned it all the way for the initial score.

The Jacks got their only score of the night on a fake field goal attempt resulting in a first down and an ensuing touchdown.



Astrodome game

In SFA's first appearance in the Astrodome on Sept. 11, a crowd of 8,000 saw the Jacks and the Sam Houston Bearcats call it a draw, 14-14.

The Jacks took advantage of quarterback Steve Adams' arm early in the first quarter as he connected with Scott Brady for 11 and 14 yards, and with Robert Barnes for 13. George Hodge took the ball in from the seven yard line. Hunter Mullikin's kick was good and brought the score to 7-0.

Sam Houston tied the game late in the second half by driving 77 yards for a touchdown.

SFA's final points came as the result of a 68-yard drive in which Steve Hollywood, Robert Barnes and Andy Wilkins each received an Adams' pass.

Texas Lutheran spoils Homecoming

The Texas Lutheran College Bulldogs spoiled Homecoming with a 35-18 win before 11,000 fans in Lumberjack Stadium on Oct. 30.

Lumberjack Jimmie Wright electrified the crowd by taking the opening kickoff down the right sideline 99 yards for a Lumberjack touchdown. Wright's return tied the school record and was just one yard short of the conference record.

Wright had four returns in the game for 150 yards and also caught five passes for 84 yards. For his efforts he was named outstanding back for the game, and was nominated for conference player of the week honors.

The Bulldogs stormed back with touchdowns on their first two possessions and never trailed again.

Lumberjack Harden Weech paced the Jacks with 59 yards on 18 carries. Defensive standouts were Tommy Parr, Donnie Dinges, Tom Jenkins and Robert Vinson.

Jacks lose Chief Caddo

The Lumberjacks lost to the Northwestern State University Demons 47-0 in the annual "Battle for Chief Caddo" Sept. 18.

The 7-foot, 6 inch wooden replica of the chief of the Caddo Indian nation had been a resident of the SFA field house since a 14-13 Lumberjack victory in 1974.

Demon fullback Sidney Thornton scored four times in the first half, tying the school record. Thornton gained 92 yards on 10 carries and did not play in the second half.

The Lumberjacks were able to get close to the goal line twice in the game, but both times the drives fizzled and the Jacks' field goal attempts were futile.

George Hodge led the Jacks in rushing with 31 yards on 10 carries and quarterback Steve Adams completed six of 14 passes for 91 yards.

Season Win

The Lumberjacks entered the winner's circle for the only time in the season with a 10-3 victory over Howard Payne University.

Howard Payne started the scoring early with three points on a 27 yard field goal in the first quarter. That was all the Yellowjackets could come up with as a tough SFA defense held the Jackets in check all evening.

SFA got on the scoreboard in the second quarter after five unsuccessful drives when Hunter Mullikin ended a four-play, 40 yard drive with a field goal of 42 yards. The first half ended in a 3-3 deadlock.

The score was still knotted at three points apiece when Howard Payne's punter fumbled the snap and the Lumberjacks recovered on the Yellowjackets' three yard line.

On the next play, Harden Weech carried the ball over for the deciding touchdown. Hunter Mullikin added the conversion, and the game ended with SFA on top.

Robert Vinson, Doak Elledge and Tom Jenkins led an impressive Lumberjack defensive effort.

ACC steams Jacks

The Wildcats from Abilene Christian College found an outlet for their frustrations of the football season as they steamed over the Lumberjacks 51-14.

The Wildcats unleashed an offensive attack that gained 488 total yards. The Jacks were unable to stop the passing of Jim Reese, the LSC's leading passer.

George Hodge scored the Jacks' first touchdown early in the first quarter on an 18-yard run. Hunter Mullikin added the extra point. Hodge led the ground attack with 80 yards on 18 carries.

Quarterback Herby Baker scored the Jacks' final points on an 80-yard run. Mullikin again booted the extra point.

Leading the defensive charge was Jimmie Dickinson, who had nine individual tackles and two quarterback sacks. Linebacker Robert Vinson also had an outstanding game with eight tackles and six assists.

A&I sets record

Texas A&I set a new state record for most consecutive wins by defeating the Lumberjacks 77-7 for the Javelinas' 31st win in a row.

A&I rolled up 788 yards in total offense, just four yards shy of the conference mark, while holding the Jacks to just 119 total yards.

The Hogs displayed an awesome offense as 11 different people scored touchdowns.

Behind 70-0 with minutes left in the game SFA began their longest and most productive drive of the night. George Hodge went over for the score to climax the 13-play, 80-yard drive. Hunter Mullikin kicked the extra point and the game ended with the score 77-7.

Chosen as outstanding players for the game were Mark Brazil, Andy Wilkins, Richard Gaines and Doak Elledge.

Jacks lose close one

In the snow and ice the Lumberjacks dropped a tough 10-6 decision to the Cameron State Aggies in Lawton, Okla.

Despite freezing temperatures tailback George Hodge rushed for 128 yards on 29 carries to give him 472 yards on the year.

The Jacks took the opening kickoff and moved to the Cameron nine yard line when disaster struck by way of interception.

The Aggies steamed their way down the snow covered field to the SFA 12 yard line before stalling. The field goal attempt was good and the Jacks trailed 3-0 in the first quarter.

On the ensuing series, Hodge fumbled at the Jack 19 which resulted in the Cameron touchdown. The extra point attempt was perfect making the score 10-0 with five minutes left in the half.

Linebacker, Jimmy Wilson recovered a fumble setting up the Jacks' first score of the night which was a result of a Hunter Millikin field goal at 22 yards.

A tough Lumberjack defense held the Aggies in check for the remainder of the game.

With just over a minute left in the third quarter, Hunter Mullikin hit on a 20 yard field goal, and the Jacks trailed only 10-6.

Late in the fourth quarter freshman quarterback Mike Olle entered the game and nearly engineered a comeback drive. Olle moved the Jacks from their own 11 to the Cameron two yard line before the Aggie defense stiffened.

Bobcats zip Jacks

The Lumberjacks fell to the Bobcats of Southwest Texas 34-0 before 6,000 fans in San Marcos.

The Bobcats took advantage of several Lumberjack miscues and took a 14-0 lead at halftime. The Jacks were able to drive to the Bobcats' 13 yard line but failed to score as a 33-yard field goal attempt by Hunter Mullikin sailed wide to the right.

The Bobcats scored on their first possession in the second half on a 27-yard pass. After a short Lumberjack punt the Cats took the ball in again to lead 27-0 with 5:14 left in the third period.

SFA faltered again, giving up the ball on their own 20-yard line. The Bobcats took advantage of the mistake and scored their final points of the afternoon.

The Jacks were led on the ground by tailback George Hodge, who gained 50 yards on 18 carries. Quarterback Mike Olle completed three of five passes for 37 yards. Tight end Andy Wilkins had three receptions for 51 yards to lead the receivers.

Wilkins and center Larry Scholtz were named offensive players of the week, while nose guards Tom Jenkins and Donnie Dinges took defensive honors.

Rams blank Jacks

The Angelo State Rams put 19 easy points on the scoreboard in the first quarter and then coasted to a 26-0 win over the Lumberjacks.

The Jacks were held to just 143 total yards as the Rams broke their two game losing streak. It was the sixth straight loss for SFA.

Neither team had a good night statistically, as the Rams did little better than the Jacks but got the breaks at the right time.

The Lumberjacks were paced on the ground by George Hodge, who had 53 yards on 10 carries. All in all, the Jacks rushed for 77 yards.

Sam edges Jacks, 8-7

Stephen F. Austin's best chance to escape the cellar ended in failure as the Bearkats from Sam Houston outlasted the Jacks 8-7. Both teams entered the game with 1-5-0 conference records.

The Jacks scored first on an impressive drive that covered 80 yards in 16 plays. Freshman quarterback, Mike Olle, connected on three consecutive passes to split end Scott Brady to set the ball on the Sam Houston three yard line.

Olle took the ball in himself on a three yard jaunt around right end. Hunter Mullikin added the extra point to give the Jacks a 7-0 lead.

The Jacks held the Bearkats in check until the third quarter when the Kats went 99 yards in 12 plays to score.

Then the Jacks were completely fooled by a successful extra point attempt to make the score 8-7.

Jacks capture East Zone title

Although the Lumberjacks started slow and never won consistently they did manage to capture the Lone Star Conference East Zone championship with an 8-6 conference record.

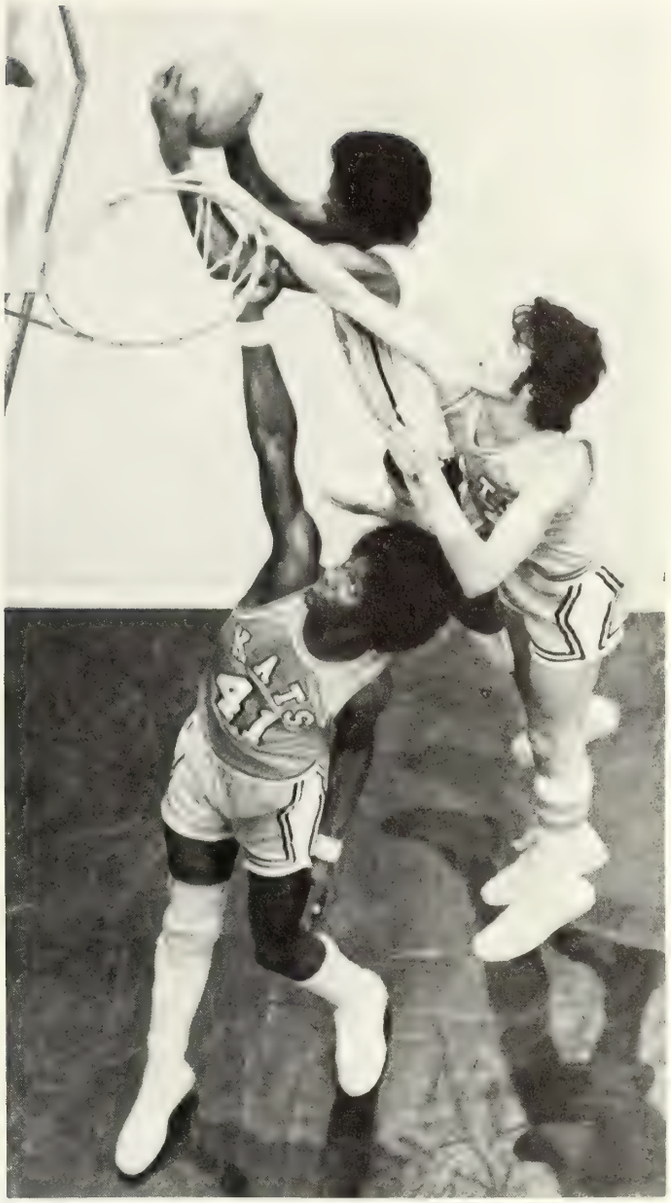
Lack of an offensive leader and consistent scoring is what Head Coach Marshall Brown attributed to the Jacks mediocre season. "Our defense was fairly strong all year long but we lacked offensive punch. The lack of a team leader hurt us a great deal offensively."

The loss of three key players to grades hurt the Jacks but the team tried hard to overcome the situation. Coach Brown commented, "We worked hard beginning in early fall and then lost three players that could have helped us. As a team we weren't as good as we could be but we tried harder than ever. The lack of an outside shooter really hurt us."

SFA never established a starting five as they alternated all season long searching for the best blend. Leading scorers for the Jacks were Mike Dukes and Wilbert Marshall who averaged 12 points a game. Kenneth Beasley finished second in the Lone Star Conference in rebounding, averaging 10.7 rebounds a game.

Sandy Ballard led all Lumberjacks with an 80 percent free throw percentage. Leading the Jacks in assists was Rick Dowdle averaging 4.5 assists per game.

"We played good defense,



but lacked offensive punch."

Marshall Brown

The Lumberjacks opened the season challenging Midwestern's 57 game home-court winning streak. The Jacks became victim number 58 as the Indians pulled out a hard fought 62-54 decision. In a return match a week later at the coliseum the Indians once again prevailed with a 101-99 overtime win. Ken Beasley's 33 points and 12 rebounds almost pulled the Jacks out of the fire.

Traveling to Pineville, La., the Jacks fell again, as the Wildcats of Louisiana College took advantage of poor offense for a 72-54 decision.

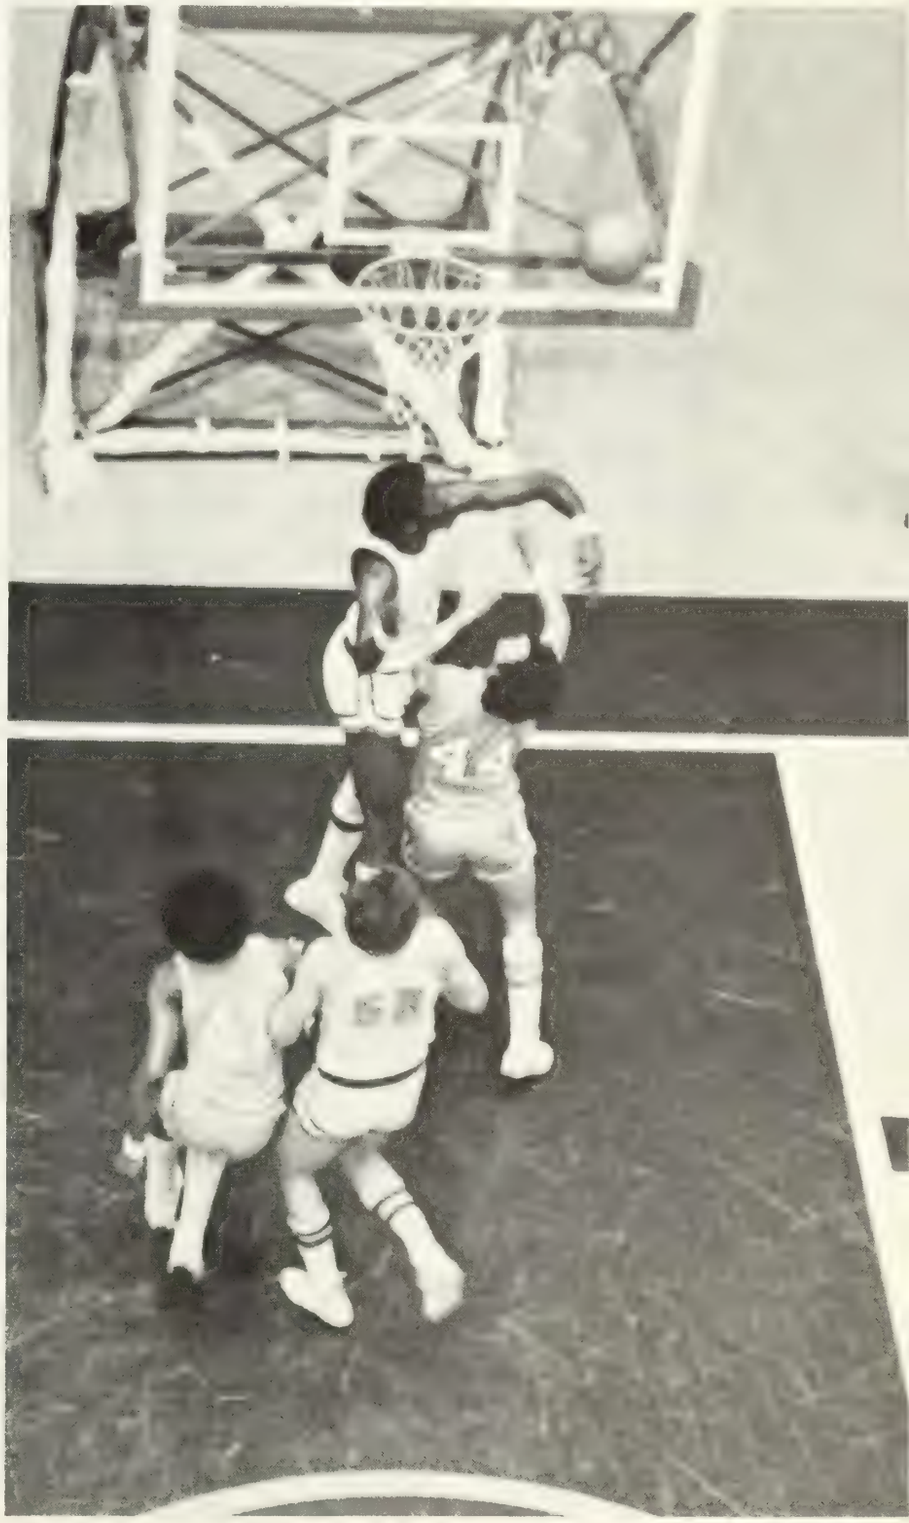
Mike Dukes was also named to the all-star team and seven foot postman Ken Beasley was awarded the Most Valuable Player in the two day classic.

A season high of 39 points by Loddie Naymola sparked the Jacks to a 94-86 win over a scrappy East Texas Baptist crew.



Lumber-jacks rally to win

Wilbert Marshall led the Lumberjacks in their first two conference games against Tarleton State and Howard Payne. Marshall pushed in 17 points as the Jacks whipped Tarleton 95-66.

The Jacks lost their next two games to Angelo State, 82-74, and Abilene Christian, 87-82. Rick Dowdle led the Jacks with 19 points against Angelo State while Rick Close pushed in 19 in the Abilene Christian game.

In a rematch against Abilene Christian Rick Dowdle again turned in an outstanding performance with 22 points as the Jacks defeated the wildcats, 96-91.

After splitting with East Texas State and a tough overtime loss to Howard Payne, SFA won their last five of seven games to capture the Lone Star Conference's East Zone. Mike Dukes, Rick Dowdle and Kenneth Beasley turned in outstanding performances to lead the Jacks.

Loss in Brownwood

East Zone champion, Stephen F. Austin, drew a bye in the first round but fell to the Lions from East Texas State, 74-71, in overtime for their only appearance at the Lone Star Conference Tournament held in Brownwood.

The Jacks stayed atop the Lions most of the evening until 4:04 left in the second half. But the Lions proved they were going to be the team to advance to the finals.

SFA's Mike Dukes scored the Jack's final points of the game giving SFA a 71-65 lead.

East Texas stormed back to tie the game 71 — all which forced the game into overtime.

The Lions scored the three winning points in overtime and kept the Jacks from scoring.

SFA missed a golden opportunity when Wilbert Marshall missed two free throws in the closing seconds of the game.

Coach Gunter leads Ladyjacks to championship

The SFA Ladyjacks were ranked tenth in Sports Illustrated's pre-season polls and have since knocked off number one Delta State and number three Wayland Baptist to move to number four in the national polls.

Coach Sue Gunter, in her thirteenth year and eleventh with the Ladyjacks has led her team to the national championship tournament three times in the past four years.

Coach Gunter, an All-American player herself, has the privilege of coaching an All-American this season. She was a member of a national championship team and coach of the silver medal winning United States Team in Montreal at the Olympic games.

"For me, coaching is an extension of playing. The satisfaction is just as great and the challenge is equal. The team that I coach is an extension of myself, win or lose, good or bad," she explained.

This year's Ladyjacks 23-4 season record ranks them as one of the top women basketball teams in the nation. With state, regional and national tournaments still to play the Ladyjacks could possibly bring a national title to SFA.

Ladies capture East Zone Championship

The Ladyjacks of Coach Sue Gunter had little difficulty in running away with the championship title of the Texas Association of Intercollegiate Athletics for Women's Southeast Zone Tournament held in Nacogdoches.

The national ranked Ladyjacks carrying a 22-4 season record into the title contest crushed the Lady Aggies of Texas A&M, 94-62.

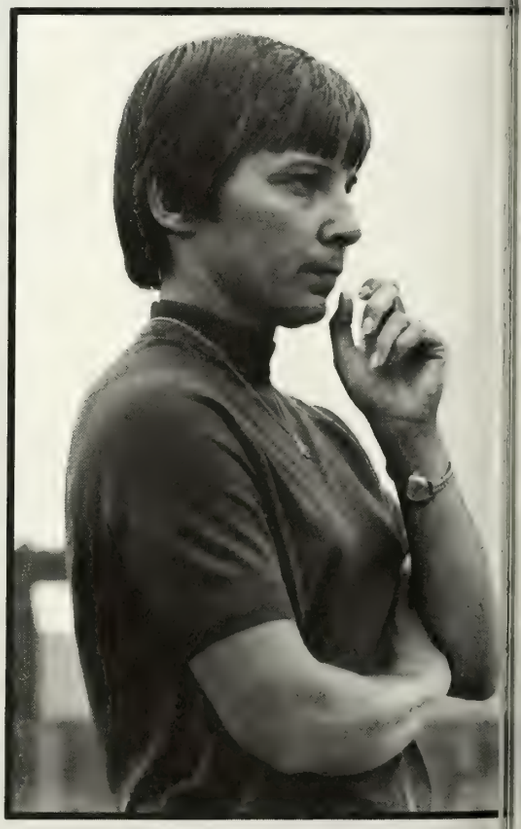
With only four minutes gone in the second half the Ladyjacks boosted their lead to 30 points by way of a 59-29 deficit.

Coach Gunter then went to her bench and lost nothing as the Ladies continued to control the contest by as much as 33 points.

Debra Kay Thomas paced the Ladies with 22 points while Doris Felderhoff followed with 20 points. Betsy Coker and Diana Rohmer each had 10 points to round out the scoring leaders.



Ladyjacks finish fifth in state

"This is a team that will bring SFA a state championship within the next two years," is the prediction of Ladyjack softball coach Sadie Allison.

Allison's prediction came after the ladies played their final game for fifth place in the state championship held in Nacogdoches.

Robin Ramsey, short-stop, Judi Phillips, outfielder, and Debra Hayward, catcher, were cited as contributing most to the overall team effort.

There are no seniors on the squad, and basically the same team will be back next year. Most of the players have had experience in the sport for a number of years.

Alpha Chi Omega was founded on the philosophy of providing an opportunity for women as a group to reach their goals both socially and academically. Their colors are scarlet and green, and their symbol is the lyre.

Each year the sorority sponsors a Dance-a-thon for Muscular Dystrophy, and the women also support a variety of charities. Despite their busy schedule of activities, the Alpha Chi Omegas found time for formals held in Lufkin and Houston.

The SFA chapter now has 86 members. Some of the sorority's accomplishments include being winners in co-rec football and in Greek Week activities.

AKA

Alpha Kappa Alpha has been an established sorority at SFA since 1972. Their colors are pink and green, and their symbol is the ivy.

The sorority is known socially for its service to all mankind.

Throughout the year, Alpha Kappa Alpha has sponsored social activities for its members. The group worked hard on many service projects for Nacogdoches, including participating in the Heart Fund Drive.

Alpha Kappa Alpha members must maintain a 2.0 GPA and carry at least a 12 hour course load to remain active in the sorority.

Chi Omega

The Epsilon Zeta chapter of Chi Omega was founded at SFA in 1963. Formally the Pine Burr Social Club, Chi Omega has grown to its present 85-member size. Of these, 60 are active, and 25 are pledges from a successful fall rush. Their colors are red and yellow, and the symbol is the owl.

The Chi Omegas participate in many campus activities. Many individual members belong to various honorary fraternities, and the sorority takes a very active part in intramurals.

Last spring, they sponsored their first "Chi Omega Superstars" trackmeet which was a success. The program was an all-afternoon event, and the proceeds went to Guatemalan earthquake victims. Their fall service project was a Christmas party for the children at the Rusk State Hospital.

Delta Zeta

The Zeta Psi chapter of Delta Zeta was founded at SFA in 1963. The sorority colors are rose and green, and the Kilarney rose is their flower. Over the years the group's membership has grown to include 77 women.

Participating in intramurals and fraternity little sister organizations, the Delta Zetas keep themselves busy. Personal recognition to several of its members include Jeannie Johnson, Piney Woods Queen and Beth Butler, Sigma Chi Derby Doll.

Although the chapter has many social activities, they also devote time to service projects. One of the most successful projects was a Tramp-a-thon with the Sigma Chi fraternity during the East Texas Country Fair, in which they jumped for 66 continuous hours to raise money for Multiple Sclerosis.

Sigma Kappa was founded at SFA in 1966, and their colors are lavender and maroon. During the fall they won the Spirit Award for the Sigma Chi Derby Day activities.

The sorority's fall formal and banquet were held in November at the Registary Hotel in Dallas. Miss Nacogdoches, Rhonda Conner, was a member of Sigma Kappa, and other individual achievement awards both nationally and locally belong to many of the Sigma Kappas.

A geriatric program plays a big part in the sorority's activities. The group adopted a grandfather, whom they visited regularly, and they carried out projects for the local nursing homes throughout the year. Recently, the sorority started an exercise program at the Treatment Center which has received national recognition.

ZTA

Zeta Tau Alpha is the newest member of the Greek family at SFA. The group began fall rush with only 15 members, but has grown to include 32 members. They are willing to work toward having a good sorority and have proven their dedication.

Along with their other activities, the Zetas sponsored a Christmas party for retarded children and did several service projects for the community. Social activities included a spring formal in San Antonio, building a float with the Sigma Taus for Homecoming, and other activities throughout the year.

The local group, which was still a colony in the fall, was looking forward to national installation in the spring, when they would become members of the national sorority.

Scholarship, fraternal brotherhood, and human service are some of the priorities of ACACIA fraternity, which received its charter at SFA April 27, 1975.

The fraternity colors are black and gold, and their flower is a sprig of acacia in bloom. The ACACIA Order of the Delphi is the group's auxiliary organization.

The annual Founder's Day Formal is held each spring, traditionally in May. Also in the spring, the ACACIA chapters in Texas and Louisiana tour the Shriners' Burn Institute in Galveston, where the fraternity members donate blood. After the tour, the trip often becomes a social event, including parties and softball competition between various chapters represented.

President William R. Johnson

Dr. William R. Johnson officially began his work as SFA's fourth president on July 1, 1976.

He formerly served as Vice President of Academic Affairs at Texas Tech University in Lubbock. He received his Ph.D. in History from the University of Oklahoma.

Although Dr. Johnson is administratively oriented, he finds time to share with his family. He and his daughter Alison, 16, share a photography hobby and photo lab. Alison is a photographer for the Nacogdoches High School newspaper.

Scott, 17, occasionally finds time in his busy schedule to join his father in a friendly match of tennis or handball. Scott plays the French horn and is in the local high school band.

Mrs. Johnson has been busy redecorating the president's home to meet the family needs.

As with most American families which have teenagers, with their part-time jobs, dates, and school activities, the Johnson family has a difficult time meeting together. When those rare moments do occur, they enjoy music and singing together or the typical American family entertainment, television.

TOP: The Johnson family moved into the President's house in June.
LOWER LEFT: Doug Duke, student government president, and Dr. Ralph Steen, president emeritus of SFA, welcome Dr. Johnson to the university.
LOWER RIGHT: Dr. Johnson began his duties on July 1, although he was not officially inaugurated until Nov. 18.
BELOW: The Johnsons enjoy an evening of family entertainment.

Stephen F. Austin State University Board of Regents
